ADVANCING SOLUTIONS TO HOMELESSNESS

INTRODUCTION

The *2019 Missouri Statewide Homelessness Study* provides a summary of information available about homelessness in each Missouri Continuum of Care (CoC) region and across the state for the 2014-2018 time period. Utilizing data from each CoC's Point-in-Time (PIT) Count, Housing Inventory Count (HIC), Annual Homeless Assessment Report (AHAR), system performance measure data, and local coordinated entry systems (CES), this report reviews the state of homelessness in Missouri through the lens of data and offers an opportunity to reflect on trends across the state and within each CoC. This report provides information covering trends in:

- How many people are experiencing homelessness, including both sheltered and unsheltered populations;
- Who is experiencing homelessness, including the racial composition of those experiencing homelessness, numbers of families, unaccompanied youth, and veterans experiencing homelessness, and other specific subpopulations;
- The state's homeless housing capacity, including for emergency shelter, transitional housing, and permanent housing; and
- Progress made in responding to homelessness measured using system performance measures defined by the U.S. Department of Housing and Urban Development (HUD), including how the state and communities compare related to percentages of households served who return to homelessness after being housed, median length of time homeless, housing access and retention, and progress toward ending homelessness for specific subpopulations.

The Missouri Housing Development Commission (MHDC) contracted with Homebase to conduct this Study and produce this report. Homebase's methodology for completing the study began with collecting data from the HUD Homelessness Data Exchange (HDX) database and from CoC staff. In addition, Homebase interviewed the program and HMIS administrators for each CoC in Missouri to offer additional context about the CoC, its data and how its homelessness system has developed in recent years. Homebase analyzed the available information and prepared this report. This report closes out the past decade of biennial reports published by MHDC. Previous reports were published in 2017, 2015, 2013, and 2011.

HOW TO USE THIS STUDY

The *2019 Missouri Homelessness Study* is meant to provide both high-level and detailed information about homelessness statewide and in each CoC. The first part of the Study is a series of fact sheets, one for the state of Missouri and one for each CoC, providing high-level data about the number of people experiencing homelessness, homeless subpopulations, housing capacity, coordinated entry system performance, and homeless system performance, including changes over the past five years. This information provides the reader with a set of key takeaways on the number and demographics of those experiencing homelessness in the state and each CoC, as well as relative success in responding to homelessness.

The second part of the study is a set of comprehensive data charts and tables about homelessness for each CoC and the state for the 2014-2018 time period. This data will provide the reader with easy access to a thorough set of data from the PIT, HIC, and AHAR sources.

The goal of the *2019 Missouri Homelessness Study* is to offer those within the homelessness field in Missouri an opportunity to review available data across the state's homeless systems of care, assess the progress made toward ending homelessness, and identify opportunities towards ending and reducing homelessness.

2019 Missouri Statewide Homeless Study
Fact Sheet Glossary

This Fact Sheet Glossary offers background information on the data sources for each section of the Fact Sheets. It also provides additional context and caveats that the reader may consider as they review the Fact Sheets. Please note that the majority of the data is HUD required and follows HUD guidelines. CoCs provided local Coordinated Entry System (CES) data. Each CoC's CES is designed to meet local needs and there may be differences in how data points are measured.

2014-2018 Point-in-Time Count: How many are experiencing homelessness

The 2014-2018 Point-in-Time (PIT) count data was collected from the HUD Homelessness Data Exchange (HDX) for each CoC. The state data reflects the summation of the data of each CoC for each year from 2014 through 2018. This data reflects the information submitted to HUD for the PIT Count for sheltered and unsheltered populations.

HUD requires that each CoC conduct a sheltered count every year and an unsheltered count every other year (odd years). Almost every CoC in Missouri conducts sheltered and unsheltered counts every year. The one exception is the City of St. Louis, which in 2014 only conducted a sheltered PIT count. In the following years, the City of St. Louis conducted both a sheltered and unsheltered count each year.

The PIT count has limitations in its ability to give an accurate count of how many people are experiencing homelessness in a community in a given year. The count typically takes place over a period of 1-2 days in January, and only provides a snapshot of how many people are experiencing homelessness at that particular point in time. The PIT count is a barometer of overall trends and significant changes.

2014-2018 Subpopulation Trends: Who is experiencing homelessness

Families

Family homelessness data was collected from the HUD reported PIT count.

Unaccompanied Youth

Unaccompanied youth homelessness data was collected from the HUD reported PIT count.

Data was unavailable for 2014, so this information only covers 2015-2018 for each CoC and the state.

Youth are a particularly difficult population to count especially without targeted engagement.

Race

Race data for those experiencing homelessness was collected from the HUD reported PIT count. Data for racial groups is displayed based on highest percentages, so each CoC does not include the same categories.

In addition, 2018 Census data was used to compare the percentage of Black or African Americans experiencing homelessness with their percentage of the general population.

Domestic Violence

Data on those experiencing domestic violence and homelessness was collected from the HUD reported PIT count.

It is important to note that experience of domestic violence often goes underreported so the number experiencing domestic violence is likely higher than reflected in this count

Veterans

Veterans homelessness data was collected from the HUD reported PIT count.

Chronic Homelessness

Chronic homelessness data was collected from the HUD reported PIT count.

In 2016, the definition of Chronic Homelessness changed. This change went into effect during the 2017 counts and for many CoCs, the change corresponds with an increase in the number of people experiencing chronic homelessness.

2

2014-2018 Housing Inventory Count: Trends in CoC Homeless Housing Capacity

Homeless housing capacity data (as measured by the number of beds reported in the Housing Inventory Count, HIC) was collected through the HUD-reported HIC that each CoC completes annually. The state data is a summation of the CoC-level data.

Not all CoCs invest in the same types of homelessness housing. For example, Safe Haven housing and Other (meaning types of permanent housing not included in another category) are two types of housing not available in all CoCs. Where data reflected no units of a particular housing type, that category of housing was not included in the CoC's Fact Sheet.

System Performance & Progress Toward Ending Homelessness

The system performance measure (SPM) data highlighted in the Fact Sheets was collected from HUD's System Performance Measure Summary for 2015-2017 and the CoC's HDX report for 2018. For each data point, the State Fact Sheet is an average of all CoCs data. This information provides an overview of how a CoC's system is performing according to the HUD defined SPMs. SPM data is available for 2015-2018. In some cases CoCs did not have data available for particular years. When a fact sheet does not include a data point, the CoC did not have data for that year.

Median Length of Time Homeless

SPM 1 measures median and average length of time homeless for each CoC, assessing the number of days a participant is enrolled in an Emergency Shelter, Safe Haven or Transitional Housing program. This data was collected from data reported to HUD and included in HDX SPM reports.

The measure used in the Fact Sheets is the median length of time homeless. Median number of days was chosen over average to avoid any outlier data that may skew the number high or low.

Returns to Homelessness

SPM 2 measures the rate of returns from permanent housing destinations to homelessness. This measure looks at clients in each CoC who exited to a permanent destination but have since returned to homelessness as indicated by a more recent record in Street Outreach, Emergency Shelter, Safe Haven, and Transitional Housing interventions. This data was collected from data reported to HUD and included in HDX SPM reports.

In addition to the percent returns by housing intervention, the Fact Sheets also provide an average for how many individuals served through the CoC homelessness system return to homelessness within 2 years from permanent housing destinations.

Exits to Permanent Housing

SPM 7 measures the percent of those in a CoC's homeless system of care who are in permanent supportive housing and retain permanent housing or exit to other permanent housing.

The measure also looks at the percent of people who successfully exited to permanent housing from emergency shelter, transitional housing, safe haven, or rapid re-housing.

The Fact Sheets include both percentages. This data was collected from data reported to HUD and included in HDX SPM reports.

Coordinated Entry System Data

Coordinated Entry System (CES) data was provide by the CoC collaborative applicants and HMIS administrators. For data sources see each Fact Sheet. Statewide totals are unavailable. Each CoC currently has different date ranges and slightly different data collection for CES. While this report does not include state information, future reports may provide this information as HUD releases additional CES guidance and helps standardized data collection and analysis of CES data.

Progress Toward Ending Homelessness

Progress toward ending homelessness is measured by looking at the U.S. Interagency Council on Homelessness (USICH) list of "Communities that have ended homelessness." This information is available online at USICH's website.

PIT count subpopulation decreases were also referenced when appropriate.

3

Missouri Statewide Overview
2019 Homelessness Study Fact Sheet

This fact sheet provides an overview of homelessness data across the entire state of Missouri. It reflects the cumulative data from all CoCs across Missouri between 2014 through 2018, and provides a picture of statewide performance and progress toward ending homelessness. This overview may also provide CoCs within the state a point of comparison for their performance. It's important to note that this data reflects the data recorded within all the CoCs across Missouri and reflects individual CoC data challenges and varying PIT count methodologies. The statewide data can offer insight into larger trends and performance across the state and serve as a reference point for the system going forward.

2014-2018 Point-in-Time Count: How many are experiencing homelessness
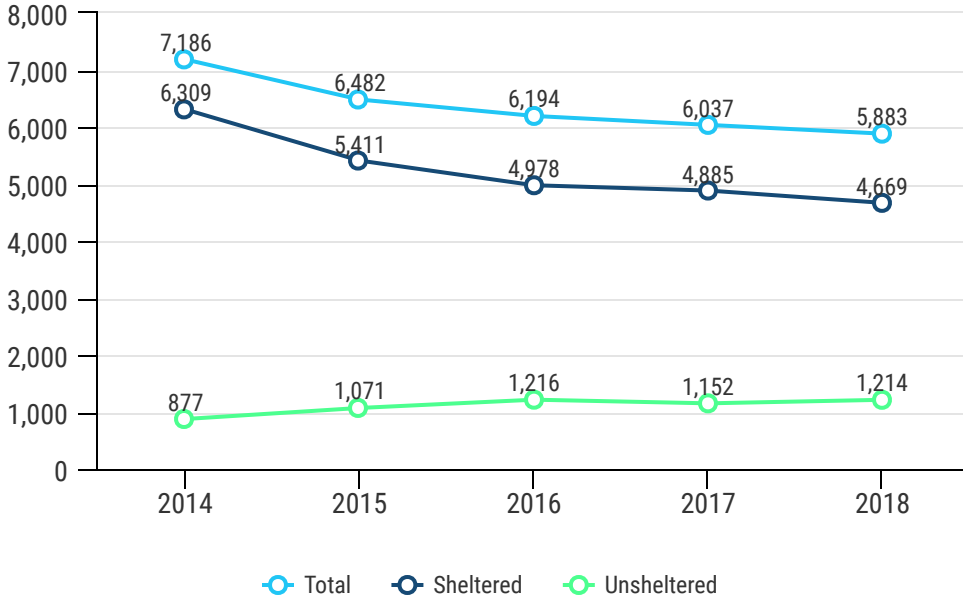

Between 2014 and 2018 overall homelessness in Missouri decreased 18% from 7,186 to 5,883. During this same period, the state overall experienced a:

- 26% decrease in sheltered homelessness (6,309 to 4,669)
- 38% increase in unsheltered homelessness (877 to 1,214)

As of 2018:

- 79% of people experiencing homelessness are sheltered in the state
- 21% of people experiencing homelessness are unsheltered in the state

Source: 2014-2018 Point-in-Time (PIT) Count Data accessed via HDX.

2014-2018 Subpopulation Trends: Who is experiencing homelessness

Families
Family homelessness decreased 29%

2014 · 2015 · 2016 · 2017 · 2018
2,966 · 3,048 · 2,384 · 2,269 · 2,107
Unaccompanied Youth

The number of unaccompanied youth increased 13% between 2015 (474) and 2018 (535)

- 77% of youth counted as unaccompanied were between the ages of 18-24 and 23% were <18 years old

Race

5% Multiple Races
2% Other*
40% Black or African American
54% White
2014-2018, an average of 40% of those experiencing homelessness identified as Black or African American. But, as of 2018, less than 12% of the general population across Missouri identifies as Black or African American

Domestic Violence

The number of people reporting experiences of domestic violence increased 47% from 691 in 2014 to 1018 in 2018

Veterans

Veteran homelessness decreased 22% from 652 veterans in 2014 to 507 in 2018

Chronic Homelessness

Chronic homelessness increased 8%. This increase is impacted by a change between 2016 and 2017 in how chronic homelessness was defined and counted

2014-2018 Housing Inventory Count: Trends in CoC Homeless Housing Capacity

Between 2014 and 2018, overall homeless housing capacity decreased 1%

Housing capacity:

- Decreased 3% for Emergency Shelters
- Decreased 42% for Transitional Housing
- Increased 161% for Rapid Re-housing
- Increased 5.5% for Permanent Supportive Housing
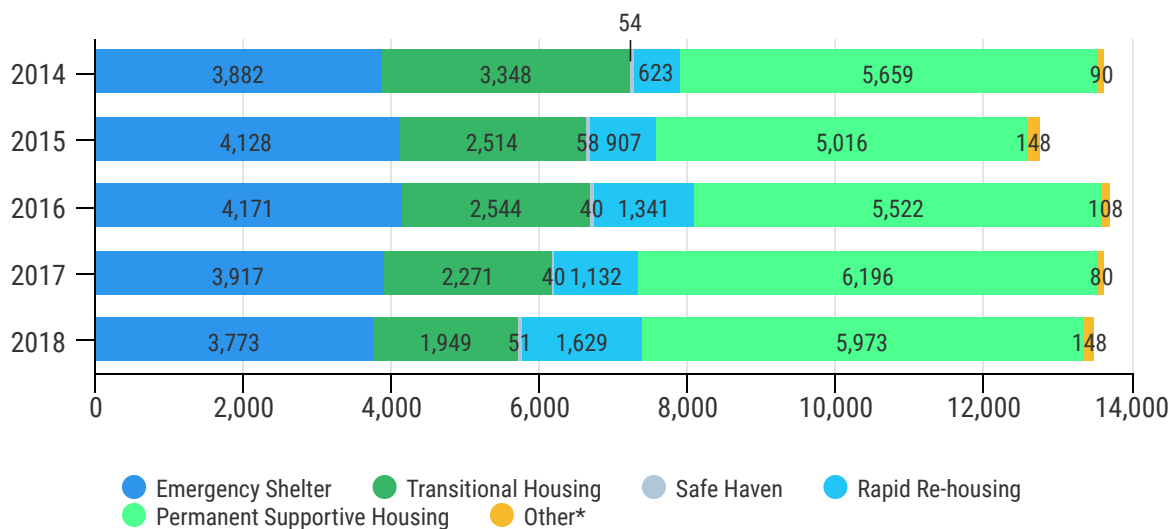

Year	Emergency Shelter	Transitional Housing	Safe Haven	Rapid Re-housing	Permanent Supportive Housing	Other*
2014	3,882	3,348	54	623	5,659	90
2015	4,128	2,514	58	907	5,016	148
2016	4,171	2,544	40	1,341	5,522	108
2017	3,917	2,271	40	1,132	6,196	80
2018	3,773	1,949	51	1,629	5,973	148

System Performance & Progress Toward Ending Homelessness

System performance measure data from 2015-2018 highlights strengths and weaknesses of the homeless system of care. Statewide, from 2015-2018, the average median length of time homeless was 41.5 days; 6% of people returned to homelessness within two years; and, 89% of people in permanent housing retained or exited to other permanent housing.

Median Length of Time Homeless

Between 2015-2018, the average median length of time homeless was 42.7 days. This measure assesses the median number of days a participant is enrolled in an Emergency Shelter, Safe Haven or Transitional Housing program.

Year	Days
2015	51 days
2016	37.9 days
2017	43.6 days
2018	38.6 days

Returns to Homelessness

Year	Emergency Shelter	Transitional Housing	Permanent Housing
2015	6%	5%	3%
2016	9%	5%	4%
2017	10%	5%	4%
2018	9%	6%	4%

● Emergency Shelter
● Transitional Housing
● Permanent Housing
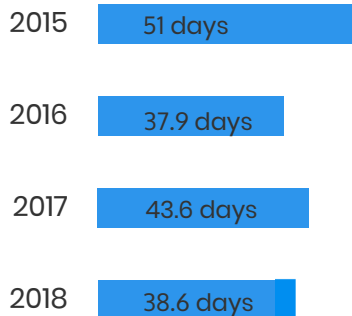

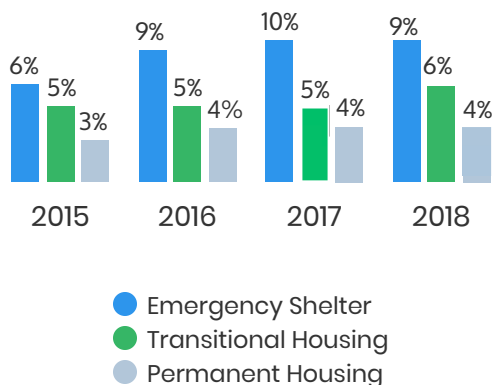

On average, 6% of people returned to homelessness within two years between 2015 and 2018.

Exits to Permanent Housing

On average, 92% of people in permanent housing retained or exited to permanent housing (2015-2018). 45% of people exited to permanent housing from emergency shelter, transitional housing, safe haven or rapid re-housing over this same period.

Year	Exit to Permanent Housing	Permanent Housing Retention
2015	39%	91%
2016	40%	93%
2017	52%	91%
2018	50%	94%
○— Exit to Permanent Housing
○— Permanent Housing Retention

Sources: HUD System Performance Measure 1, 2, and 7 Data accessed via HUD's System Performance Measure Summary and HDX.

Coordinated Entry System Data

All CoCs in Missouri have implemented a coordinated entry system (CES). Each CES is at a different point in its implementation and has varying data collection methodology. For this year's report, statewide, cumulative CES data is not available.

Progress Toward Ending Homelessness

As of 2019 two CoCs in Missouri have ended homelessness for veterans:
- Kansas City/Independence/Lee's Summit and Jackson and Wyandotte Counties St. Joseph/Andrew, Buchanan, DeKalb Counties

Source: 2014-2018 PIT Count Data and USICH "Communities that have ended homelessness," https://www.usich.gov/communities-that-have-ended-homelessness/.

MO-500 St. Louis County CoC
2019 Homelessness Study Fact Sheet

The St. Louis County Continuum of Care (CoC) covers the St. Louis County area and the County Government is the Collaborative Applicant. St. Louis County is unique in its proximity to the City of St. Louis, which provides opportunities for collaboration and coordination. The County's geography covers the areas north, west, and south of the City. The St. Louis County and City CoCs share a Coordinated Entry System (CES) and host joint meetings that bring their CoC Boards together to work more effectively and efficiently to end homelessness in the region.

2014-2018 Point-in-Time Count: How many are experiencing homelessness
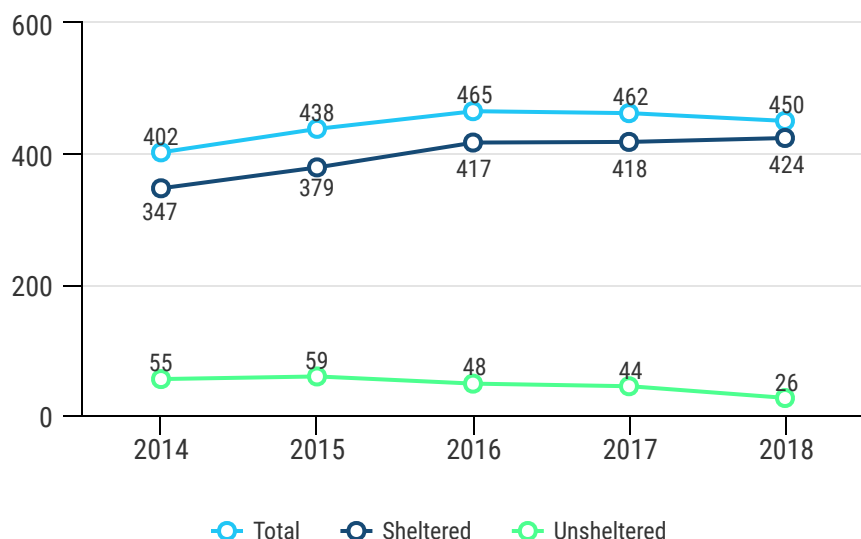

Between 2014 and 2018 the CoC experienced a 12% increase in overall homelessness from 402 to 450. During this same period, the CoC experienced a:

- 22% increase in sheltered homelessness (347 to 424)
- 53% decrease in unsheltered homelessness (55 to 26)

As of 2018:

- 8% of the state's population experiencing homelessness resides in the CoC
- 6% of people experiencing homelessness are unsheltered in the CoC compared to 21% across the state

Source: 2014-2018 Point-in-Time (PIT) Count Data accessed via HDX.

2014-2018 Subpopulation Trends: Who is experiencing homelessness

Families

Family homelessness decreased 12%

219 — 2014
233 — 2015
209 — 2016
208 — 2017
192 — 2018

Unaccompanied Youth

The number of unaccompanied youth increased 113% between 2015 (60) and 2018 (128)
- 66% of youth counted as unaccompanied were between the ages of 18-24 and 34% were <18 years old

Race

4% Multiple Races
21% White
75% Black or African American

Between 2014 and 2018, 75% of those experiencing homelessness identified as Black or African American. But, as of 2018, 25% of the County's general population identifies as Black or African American
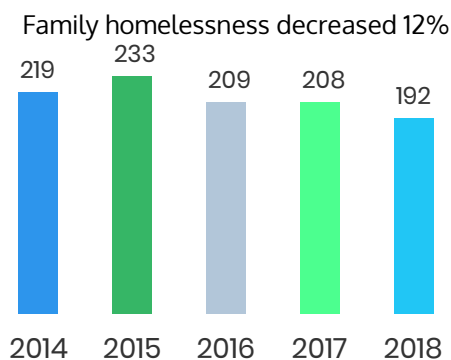

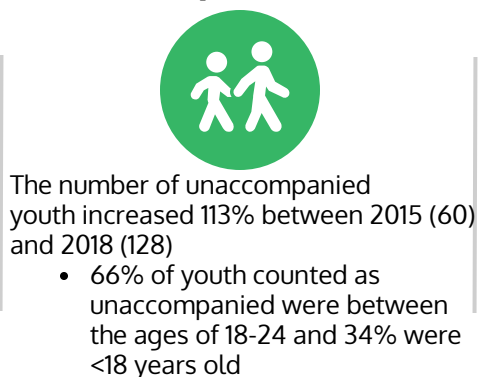

Domestic Violence

The number of people reporting experiences of domestic violence decreased 14% from 49 in 2014 to 42 in 2018

Veterans

Veteran homelessness decreased 66% from 47 veterans in 2014 to 16 in 2018

Chronic Homelessness

Chronic homelessness increased 200% from 15 to 45 individuals[1]
15 — 2014
30 — 2015
18 — 2016
73 — 2017
45 — 2018

System Performance & Progress Toward Ending Homelessness

System performance measure data from 2015-2018 highlights strengths and weaknesses of the homeless system of care. Statewide, from 2015-2018, the average median length of time homeless was 41.5 days; 6% of people returned to homelessness within two years; and, 89% of people in permanent housing retained or exited to other permanent housing. These numbers can be referenced with the CoC's system performance below.

Median Length of Time Homeless

2015-2018, the average median length of time homeless was 36.5 days. This measure assesses the median number of days a participant is enrolled in an Emergency Shelter, Safe Haven or Transitional Housing program.

Year	Days
2015	48 days
2016	43 days
2017	28 days
2018	27 days

Returns to Homelessness

	Emergency Shelter	Transitional Housing	Permanent Housing
2015	4%		1%
2016	2%	4%	2%
2017	5%		3%
2018	6%		4%

Legend: ● Emergency Shelter ● Transitional Housing ● Permanent Housing
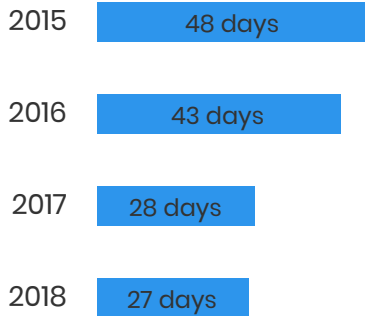

On average, 3% of people returned to homelessness within two years between 2015 and 2018.

Exits to Permanent Housing

97% of people in permanent housing retained or exited to permanent housing (2015-2018). 46% of people exited to permanent housing from emergency shelter, transitional housing, safe haven or rapid re-housing over this same period.

	2015	2016	2017	2018
Permanent Housing Retention	97%	98%	97%	95%
Exit to Permanent Housing	44%	47%	46%	48%

Legend: —○— Exit to Permanent Housing —○— Permanent Housing Retention

Sources: HUD System Performance Measure 1, 2, and 7 Data accessed via HUD's System Performance Measure Summary and HDX.

Coordinated Entry System Data

The CoCs of the County and City of St. Louis share a Coordinated Entry System (CES). As of February 2019, 1,653 people were on the CES priority list. The average length of time on the list from September 2018 to February 2019 was 188 days. Over this same period 90 households were housed through CES.

Source: Data provided by the St. Louis County CoC HMIS lead, ICA.

Progress Toward Ending Homelessness

The CoC has not ended homelessness for any subpopulations but it has seen decreases in families experiencing homelessness and veterans homelessness from 2015-2018.

Source: 2014-2018 PIT Count Data and USICH "Communities that have ended homelessness," https://www.usich.gov/communities-that-have-ended-homelessness/.

MO-501 St. Louis City CoC
2019 Homelessness Study Fact Sheet

The City of St. Louis Continuum of Care (CoC) covers the geography of the City of St. Louis. The City also serves as the Collaborative Applicant. Close in geographic proximity, the City of St. Louis CoC shares a Coordinated Entry System (CES) with the St. Louis County CoC. This collaborative effort has led to additional coordination to address the issue of homelessness across the region.

2014-2018 Point-in-Time Count: How many are experiencing homelessness
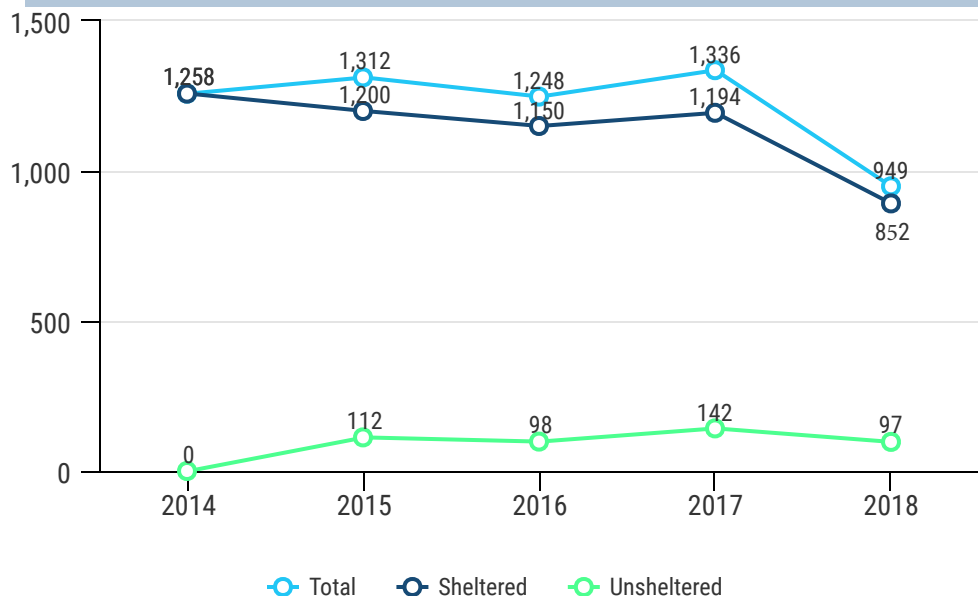

Between 2014 and 2018 the CoC experienced almost a 25% decrease in overall homelessness from 1,258 to 949. During this same period, the CoC experienced a:

- 32% decrease in sheltered homelessness (1,258 to 852)

- 13% decrease in unsheltered homeless (112 to 97) from 2015-2018*

As of 2018:

- 16% of the state's population experiencing homelessness resides in the City of St. Louis CoC

- 10% of people experiencing homelessness are unsheltered in the CoC compared to 21% across the state

*An unsheltered count was not conducted in 2014.

2014-2018 Housing Inventory Count: Trends in CoC Homeless Housing Capacity

Between 2014 and 2018, overall homeless housing capacity remained virtually unchanged but the composition changed

Housing capacity:
- Decreased 9% for Emergency Shelters
- Decreased 48% for Transitional Housing
- Increased from 0 to 204 units for Rapid Re-housing
- Increased 16% for Permanent Supportive Housing

Stacked bar chart showing housing inventory by year:

Year	Emergency Shelter	Transitional Housing	Safe Haven	Rapid Re-housing	Permanent Supportive Housing
2014	558	783	18		1,619
2015	589	757	18		1,349
2016	724	705			1,396
2017	658	680		65	1,764
2018	507	404		204	1,885

System Performance & Progress Toward Ending Homelessness

System performance measure data from 2015-2018 highlights strengths and weaknesses of the homeless system of care. Statewide, from 2015-2018, the average median length of time homeless was 41.5 days; 6% of people returned to homelessness within two years; and, 89% of people in permanent housing retained or exited to other permanent housing. These numbers can be referenced with the CoC's system performance below.

Median Length of Time Homeless

2015-2018, the average median length of time homeless was 60 days. This measure assesses the median number of days a participant is enrolled in an Emergency Shelter, Safe Haven or Transitional Housing program.
Year	Median Length
2015	66 days
2016	64 days
2017	63 days
2018	48 days

Returns to Homelessness

Year	Emergency Shelter	Transitional Housing	Permanent Housing
2015	8%	6%	5%
2016	6%	5%	6%
2017	9%	5%	5%
2018	6%	3%	4%

On average, 6% of people returned to homelessness within two years between 2015 and 2018.

Exits to Permanent Housing

96% of people in permanent housing retained or exited to permanent housing (2015-2018). 34% of people exited to permanent housing from emergency shelter, transitional housing, safe haven or rapid re-housing over this same period.

Year	Exit to Permanent Housing	Permanent Housing Retention
2015	30%	94%
2016	27%	96%
2017	41%	98%
2018	36%	97%
Sources: HUD System Performance Measure 1, 2, and 7 Data accessed via HUD's System Performance Measure Summary and HDX.

Coordinated Entry System Data

The CoCs of the City and County of St. Louis share a Coordinated Entry System (CES). As of February 2019, 1,653 people were on the CES priority list. The average length of time on the list from September 2018 to February 2019 was 188 days. Over this same period 90 households were housed through CES.

Source: Data provided by the City of St. Louis CoC HMIS lead, ICA.

Progress Toward Ending Homelessness

The CoC has not ended homelessness for any subpopulations but it has seen decreases in families experiencing homelessness, veterans, and chronic homelessness from 2015-2018.

Source: 2014-2018 PIT Count Data and USICH "Communities that have ended homelessness," https://www.usich.gov/communities-that-have-ended-homelessness/.

MO-503 St. Charles, Warren & Lincoln Counties CoC 2019 Homelessness Study Fact Sheet

The counties of St. Charles, Warren and Lincoln form the "Tri-County" Continuum of Care (CoC) with Community Council of St. Charles County serving as the Collaborative Applicant. Over the past few years, the CoC has made strides in improving data quality and timely data entry. As part of the CoC's coordinated entry system (CES) implementation they are working to coordinate with bordering counties to track clients as they move throughout the area. There is an emphasis on increased collaboration and taking a more regional approach to ending homelessness across the Tri-County CoC.

2014-2018 Point-in-Time Count: How many are experiencing homelessness

Total: 896, 803, 610, 578, 532
Sheltered: 614, 556, 380, 351, 370
Unsheltered: 282, 247, 230, 227, 162

Years: 2014, 2015, 2016, 2017, 2018

Legend: ─○─ Total ─○─ Sheltered ─○─ Unsheltered

Between 2014 and 2018 the CoC experienced a 41% decrease in overall homelessness from 896 to 532. During this same period, the CoC also experienced a:

- 40% decrease in sheltered homelessness (614 to 370)
- 43% decrease in unsheltered homelessness (282 to 162)

As of 2018:

- 9% of the state's population experiencing homelessness resides in the Tri-County CoC
- 30% of people experiencing homelessness are unsheltered in the CoC compared to 21% across the state

Source: 2014-2018 Point-in-Time (PIT) Count Data accessed via HDX.

2014-2018 Subpopulation Trends: Who is experiencing homelessness

Families

Family homelessness decreased 57%

597 (2014), 548 (2015), 322 (2016), 272 (2017), 254 (2018)
Unaccompanied Youth

The number of unaccompanied youth increased 16% between 2015 (56) and 2018 (65)

- 82% of youth counted as unaccompanied were between the ages of 18-24 and 18% were <18 years old

Race

67% White
28% Black or African American
5% Multiple Races
Between 2014 and 2018, an average of 28% of those experiencing homelessness identified as Black or African American. But, as of 2018, 3% of the Tri-County general population identifies as Black or African American

Domestic Violence

The number of people reporting experiences of domestic violence increased 79% from 34 in 2014 to 61 in 2018

Veterans

Veteran homelessness increased from 8 veterans in 2014 to 9 in 2018

Chronic Homelessness

Chronic homelessness decreased 58% from 79 to 33 individuals.[1]
79 (2014), 58 (2015), **33** (2016), 36 (2017), 33 (2018)

[1]Between 2016 and 2017 there was a change in how chronic homelessness was defined that may affect the data.

2014-2018 Housing Inventory Count: Trends in CoC Homeless Housing Capacity

Between 2014 and 2018, overall homeless housing capacity decreased 16%

Housing capacity:
- Increased 36% for Emergency Shelters
- Decreased 14% for Transitional Housing
- Decreased 77% for Rapid Re-housing
- Decreased 39% for Permanent Supportive Housing but increased 20% for other types of permanent housing

Chart: Housing Inventory Count by year

Year	Emergency Shelter	Transitional Housing	Other*	Rapid Re-housing	Permanent Supportive Housing
2014	102	163	90	115	74
2015	101	151	106	124	69
2016	105	148	106	69	83
2017	110	145	67	50	79
2018	139	140	108	26	45

Legend: ● Emergency Shelter ● Transitional Housing ● Other* ● Rapid Re-housing
● Permanent Supportive Housing

*Other is defined as Other Permanent Housing - Housing with Services (no disability required for entry) and Permanent Housing - Housing Only

## System Performance & Progress Toward Ending Homelessness

System performance measure data from 2015-2018 highlights strengths and weaknesses of the homeless system of care. Statewide, from 2015-2018, the average median length of time homeless was 41.5 days; 6% of people returned to homelessness within two years; and, 89% of people in permanent housing retained or exited to other permanent housing. These numbers can be referenced with the CoC's system performance below.

Median Length of Time Homeless

2015-2018, the average median length of time homeless was 23 days. This measure assesses the median number of days a participant is enrolled in an Emergency Shelter, Safe Haven or Transitional Housing program.

Year	Days
2015	18 days
2016	23 days
2017	23 days
2018	27 days

Returns to Homelessness

Chart: Returns to Homelessness by year

Year	Emergency Shelter	Transitional Housing	Permanent Housing
2015	2%		3%
2016	20%		
2017	7%	4%	2%
2018	8%	11%	1%

Legend: ● Emergency Shelter ● Transitional Housing ● Permanent Housing
On average, 8% of people returned to homelessness within two years between 2015 and 2018.

Exits to Permanent Housing

94% of people in permanent housing retained or exited to permanent housing (2015-2018). 55% of people exited to permanent housing from emergency shelter, transitional housing, safe haven or rapid re-housing over this same period.

Chart: Exits to Permanent Housing / Permanent Housing Retention

Year	Exit to Permanent Housing	Permanent Housing Retention
2015	49%	94%
2016	66%	100%
2017	56%	87%
2018	50%	96%

Legend: ○- Exit to Permanent Housing ○- Permanent Housing Retention

Sources: HUD System Performance Measure 1, 2, and 7 Data accessed via HUD's System Performance Measure Summary and HDX.

Coordinated Entry System Data

The Tri-County CoC CES data from January 2018 to June 2019 shows that through CES:
- 4,568 people were assessed for prevention/diversion and 3,109 were diverted from shelters
- 551 people were active on the priority list
- 706 people were housed

Source: Data accessed at: https://public.tableau.com/profile/communitycouncil#!/

Progress Toward Ending Homelessness

The CoC has not ended homelessness for any subpopulations but it has seen decreases in families experiencing homelessness and chronic homelessness from 2015-2018.

Source: 2014-2018 PIT Count Data and USICH "Communities that have ended homelessness," https://www.usich.gov/communities-that-have-ended-homelessness/.

MO-600 Springfield-Greene, Christian & Webster CoC 2019 Homelessness Study Fact Sheet

The City of Springfield and the counties of Greene, Christian, and Webster comprise one of the Continuum of Care (CoC) in the southwest corner of Missouri. The City of Springfield is the lead agency for the CoC and has led this work since the CoC was created in 1995. The CoC is a mix of rural and urban areas. It includes the urban area of Springfield while also extending out to rural areas. The CoC underwent a data migration of their HMIS to a new system over 2016 and 2017. In 2017, the CoC also formally launched their Coordinated Entry System (CES) that is also now integrated into their HMIS.

2014-2018 Point-in-Time Count: How many are experiencing homelessness

Total: 656 (2014), 584 (2015), 496 (2016), 455 (2017), 479 (2018)
Sheltered: 572 (2014), 409 (2015), 284 (2016), 255 (2017), 282 (2018)
Unsheltered: 84 (2014), 175 (2015), 212 (2016), 200 (2017), 197 (2018)
Between 2014 and 2018 the CoC experienced a 27% decrease in overall homelessness from 656 to 479. During this same period, the CoC experienced a:

- 51% decrease in sheltered homelessness (572 to 282)
- 134% increase in unsheltered homelessness (84 to 197)

As of 2018:

- 8% of the state's population experiencing homelessness resides in the CoC
- 41% of people experiencing homelessness are unsheltered in the CoC compared to 21% across the state

Source: 2014-2018 Point-in-Time (PIT) Count Data accessed via HDX.

2014-2018 Subpopulation Trends: Who is experiencing homelessness

Families

Family homelessness decreased 18%

202 (2014), 245 (2015), 195 (2016), 120 (2017), 165 (2018)
Unaccompanied Youth

The number of unaccompanied youth increased 41% between 2015 (37) and 2018 (52)

- 82% of youth counted as unaccompanied were between the ages of 18 - 24 and 18% were < 18 years old

Race

4% Multiple Races
3% American Indian/Alaskan Native
82% White
11% Black or African American
2014-2018, an average of 11% of those experiencing homelessness identified as Black or African American. But, as of 2018, less than 2% of the general population in the CoC identifies as Black or African American

Domestic Violence

The number of people reporting experiences of domestic violence increased from 78 in 2015 to 200 in 2018.

Veterans

Veteran homelessness decreased 49% from 55 veterans in 2014 to 28 in 2018

Chronic Homelessness

Chronic homelessness increased 34% from 101 to 135 individuals.

101 (2014), 161 (2015), 221 (2016), 190 (2017), 135 (2018)

[1]Between 2016 and 2017 there was a change in how chronic homelessness was defined that may affect the data.

## System Performance & Progress Toward Ending Homelessness

System performance measure data from 2015-2018 highlights strengths and weaknesses of the homeless system of care. Statewide, from 2015-2018, the average median length of time homeless was 41.5 days; 6% of people returned to homelessness within two years; and, 89% of people in permanent housing retained or exited to other permanent housing. These numbers can be referenced with the CoC's system performance below.

Median Length of Time Homeless

2015-2018, the average median length of time homeless was 37 days. This measure assesses the median number of days a participant is enrolled in an Emergency Shelter, Safe Haven or Transitional Housing program.
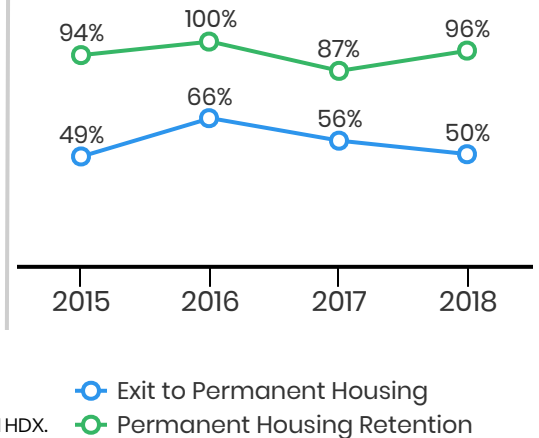

2015 — 57 days
2016 — 31 days
2017 — 27 days
2018 — 31 days

Returns to Homelessness

2015: Emergency Shelter 5%, Transitional Housing 8%
2016: Emergency Shelter 8%, Transitional Housing 2%, Permanent Housing 2%
2017: Emergency Shelter 5%, Transitional Housing 1%, Permanent Housing 2%
2018: Emergency Shelter 7%, Transitional Housing 2%, Permanent Housing 3%

Legend: ● Emergency Shelter ● Transitional Housing ● Permanent Housing
On average, 4% of people returned to homelessness within two years between 2015 and 2018.

Exits to Permanent Housing

91% of people in permanent housing retained or exited to permanent housing (2015-2018). 38% of people exited to permanent housing from emergency shelter, transitional housing, safe haven or rapid re-housing over this same period.

Permanent Housing Retention: 2015 91%, 2016 92%, 2017 92%, 2018 92%
Exit to Permanent Housing: 2015 34%, 2016 37%, 2017 38%, 2018 41%

Legend: ○ Exit to Permanent Housing ○ Permanent Housing Retention

Sources: HUD System Performance Measure 1, 2, and 7 Data accessed via HUD's System Performance Measure Summary and HDX.

Coordinated Entry System Data

The CoC's CES assessed 1,533 individuals and housed 35 in 2018. The CES was fully implemented for all of 2018 but is working on incorporating veterans programs and ensuring that all agencies are trained in how to administer assessments and update the CES priority list information.

Source: Data provided by the CoC HMIS lead, ICA.

Progress Toward Ending Homelessness

The CoC has not ended homelessness for any subpopulations but it has seen a decrease in veterans homelessness and families experiencing homelessness from 2015-2018.

MO-602 Jasper and Newton Counties CoC
2019 Homelessness Study Fact Sheet

The counties of Jasper and Newton make up the Jasper, Newton Continuum of Care (CoC). The CoC's homeless coalition is the led by the Economic Security Corporation of the SW Area, a Community Action Agency. Jasper and Newton Counties are located in the southwest corner of Missouri, bordering Kansas and Oklahoma. The CoC plans to prioritize street outreach and hopes to replicate the success of its Coordinated Entry System (CES) with street outreach.

2014-2018 Point-in-Time Count: How many are experiencing homelessness
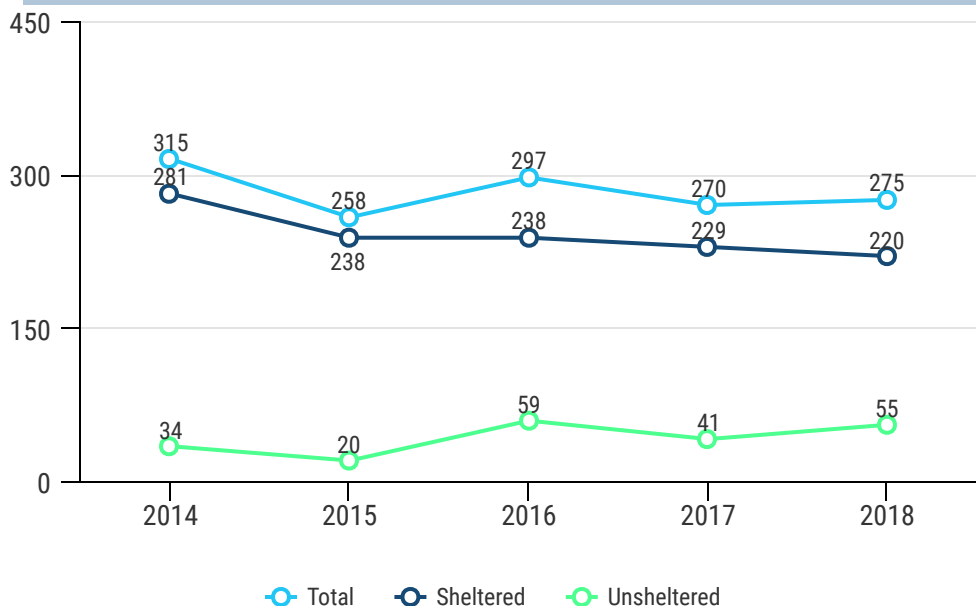

Between 2014 and 2018 the CoC experienced a 13% decrease in overall homelessness from 315 to 275. Over this same period, the CoC experienced a:

- 22% decrease in sheltered homelessness (281 to 220)
- 62% increase in unsheltered homelessness (34 to 55)

As of 2018:

- 5% of the state's population experiencing homelessness resides in the CoC
- 20% of people experiencing homelessness are unsheltered in the CoC compared to 21% across the state

MO-603 St. Joseph/Andrew, Buchanan, DeKalb CoC 2019 Homelessness Study Fact Sheet

The City of St. Joseph and the counties of Andrew, Buchanan, and DeKalb comprise the St. Joseph/Andrew, Buchanan, DeKalb Continuum of Care (CoC). The CoC is located near the northwest corner of Missouri. The CoC achieved "functional zero" for veterans homelessness in 2019, which was certified by the U.S. Interagency Council on Homelessness. This means that the number of veterans experiencing homelessness within the community is less than the average number of veterans being connected with permanent housing each month.

2014-2018 Point-in-Time Count: How many are experiencing homelessness

Source: 2014-2018 Point-in-Time (PIT) Count Data accessed via HDX.
Between 2014 and 2018 the CoC saw overall homelessness stay relatively stable, increasing 2% from 200 to 204. Over this same period, the CoC experienced a:

- 10% decrease in sheltered homelessness (194 to 174)
- 400% increase in unsheltered homelessness (6 to 30)

As of 2018:

- 4% of the state's population experiencing homelessness resides in the CoC
- 15% of people experiencing homelessness are unsheltered in the CoC compared to 21% across the state

2014-2018 Subpopulation Trends: Who is experiencing homelessness

Families

Family homelessness increased 19%
Unaccompanied Youth

The number of unaccompanied youth remained relatively stable between 2015 (8) and 2018 (9)
- 91% of youth counted as unaccompanied were between the ages of 18-24 and 9% were <18 years old

Race
2014-2018, an average of 18% of those experiencing homelessness identified as Black or African American. But, as of 2018, less than 6% of the general population across the CoC identifies as Black or African American

Domestic Violence

The number of people reporting experiences of domestic violence increased 96% from 24 in 2014 to 47 in 2018

Veterans

Veteran homelessness decreased 18% from 17 veterans in 2014 to 14 in 2018.

Chronic Homelessness

Chronic homelessness increased 38% from 45 to 62 individuals.[1]
*Other includes Asian, American Indian/Alaskan Native, Native Hawaiian/Pacific Islander

## System Performance & Progress Toward Ending Homelessness

System performance measure data from 2015-2018 highlights strengths and weaknesses of the homeless system of care. Statewide, from 2015-2018, the average median length of time homeless was 41.5 days; 6% of people returned to homelessness within two years; and, 89% of people in permanent housing retained or exited to other permanent housing. These numbers can be referenced with the CoC's system performance below.

Median Length of Time Homeless

2015-2018, the average median length of time homeless was 4 days. This measure assesses the median number of days a participant is enrolled in an Emergency Shelter, Safe Haven or Transitional Housing program.

2015: 2 days
2016: 1 days
2017: 10 days
2018: 2 days

Returns to Homelessness

2015: Emergency Shelter 12%, Transitional Housing 9%
2016: Emergency Shelter 13%, Transitional Housing 8%, Permanent Housing 3%
2017: Emergency Shelter 27%, Transitional Housing 12%, Permanent Housing 7%
2018: Emergency Shelter 27%, Transitional Housing 12%, Permanent Housing 5%
Legend: ● Emergency Shelter ● Transitional Housing ● Permanent Housing

On average, 12% of people returned to homelessness within two years between 2015 and 2018.

Exits to Permanent Housing

90% of people in permanent housing retained or exited to permanent housing (2015-2018). 30% of people exited to permanent housing from emergency shelter, transitional housing, safe haven or rapid re-housing over this same period.

Permanent Housing Retention: 2015 88%, 2016 88%, 2017 84%, 2018 82%
Exit to Permanent Housing: 2015 29%, 2016 23%, 2017 48%, 2018 19%
Legend: —○— Exit to Permanent Housing —○— Permanent Housing Retention

Sources: HUD System Performance Measure 1, 2, and 7 Data accessed via HUD's System Performance Measure Summary and HDX.

Coordinated Entry System Data

As of January 2019, the CoC's coordinated entry system (CES) had 431 households on their by-name list, which indicates that they have an active CES assessment. Of these individuals, 296 were single individuals and 135 were in families. In 2018, the CES data reports indicate that 307 people left homelessness.

Source: Data provided by the CoC.

Progress Toward Ending Homelessness

As of 2019, the St. Joseph/Andrew, Buchanan, DeKalb CoC ended homelessness for veterans as certified by USICH. This means that the number of veterans experiencing homelessness within the community is less than the average number of veterans being connected with permanent housing each month.

MO-604 Kansas City, Independence, Lee's Summit/Jackson and Wyandotte Counties CoC 2019 Homelessness Study Fact Sheet

The Kansas City, Independence, Lee's Summit/Jackson, and Wyandotte Counties CoC is comprised of Kansas City and the surrounding area. The Greater Kansas City Coalition to End Homelessness is the Collaborative Applicant. The area covered by the CoC is primarily urban and suburban. The CoC underwent a data migration over the past few years and continues to work to improve data quality. The CoC's planning focus in 2017 and 2018 was implementing the CoC's coordinated entry system (CES) and ensuring that the CES is easy for clients to navigate. In 2017, USICH certified that the CoC ended homelessness for veterans.

2014-2018 Point-in-Time Count: How many are experiencing homelessness
Between 2014 and 2018 overall homelessness in the CoC decreased 15% from 1,931 to 1,649. During this same period, the CoC experienced a:

- 20% decrease in sheltered homelessness (1,702 to 1,364)
- 24% increase in unsheltered homelessness (229 to 285)

As of 2018:

- 28% of the state's population experiencing homelessness resides in the CoC
- 17% of people experiencing homelessness are unsheltered in the CoC compared to 21% across the state

Source: 2014-2018 Point-in-Time (PIT) Count Data accessed via HDX.

2014-2018 Subpopulation Trends: Who is experiencing homelessness

Families
Family homelessness increased 18%

460 — 2014
510 — 2015
435 — 2016
494 — 2017
544 — 2018
Unaccompanied Youth

The number of unaccompanied youth stayed virtually unchanged between 2015 (107) and 2018 (108)
- 80% of youth counted as unaccompanied were between the ages of 18 - 24 and 20% were < 18 years old

Race

7% Multiple Races
2% Other*
46% White
45% Black or African American
2014-2018, an average of 45% of those experiencing homelessness identified as Black or African American. But, as of 2018, less than 23% of the general population across the CoC identifies as Black or African American

Domestic Violence

The number of people reporting experiences of domestic violence decreased 20% from 256 in 2014 to 204 in 2018

Veterans

Veteran homelessness decreased 37% from 200 veterans in 2014 to 127 in 2018

Chronic Homelessness
Chronic homelessness increased 22%, from 321 to 391.[1]
321 — 2014
388 — 2015
431 — 2016
285 — 2017
391 — 2018

*Other includes Asian, American Indian/Alaskan Native, Native Hawaiian/Pacific Islander

[1]Between 2016 and 2017 there was a change in how chronic homelessness was defined that may affect the data.

18

2014-2018 Housing Inventory Count: Trends in CoC Homeless Housing Capacity

Between 2014 and 2018, overall homeless housing capacity increased 19%

Housing capacity:

- Increased 14% for Emergency Shelters
- Decreased 25% for Transitional Housing
- Increased 580% for Rapid Re-housing
- Increased 9% for Permanent Supportive Housing
- Increased 150% for Safe Haven Housing

Year	Emergency Shelter	Transitional Housing	Rapid Re-housing	Permanent Supportive Housing	Safe Haven
2014	1,007	862	108	1,678	10
2015	1,050	550	222	1,446	14
2016	1,058	751	610	1,730	14
2017	1,109	708	433	1,929	14
2018	1,148	645	734	1,826	25

System Performance & Progress Toward Ending Homelessness

System performance measure data from 2015-2018 highlights strengths and weaknesses of the homeless system of care. Statewide, from 2015-2018, the average median length of time homeless was 41.5 days; 6% of people returned to homelessness within two years; and, 89% of people in permanent housing retained or exited to other permanent housing. These numbers can be referenced with the CoC's system performance below.

Median Length of Time Homeless

2017-2018, the average median length of time homeless was 67.5 days. This measure assesses the median number of days a participant is enrolled in an Emergency Shelter, Safe Haven or Transitional Housing program. *Data for 2015 and 2016 is not reported.*

Year	Days
2017	66 days
2018	69 days

Returns to Homelessness

| Year	Emergency Shelter	Transitional Housing	Permanent Housing
2015	11%	12%	7%
2016	17%	18%	12%
2017	12%	8%	8%
2018	11%	11%	5%

● Emergency Shelter
● Transitional Housing
● Permanent Housing

On average, 11% of people returned to homelessness within two years between 2015 and 2018.

Exits to Permanent Housing

91% of people in permanent housing retained or exited to permanent housing (2015-2018). 33% of people exited to permanent housing from emergency shelter, transitional housing, safe haven or rapid re-housing over this same period.

Year	Exit to Permanent Housing	Permanent Housing Retention
2015	3%	86%
2016	1%	90%
2017	61%	91%
2018	66%	95%
─○─ Exit to Permanent Housing
─○─ Permanent Housing Retention

Sources: HUD System Performance Measure 1, 2, and 7 Data accessed via HUD's System Performance Measure Summary and HDX.

Coordinated Entry System Data

In 2018 the CoC's Coordinated Entry System (CES) completed 1,155 assessments, resulting in 375 households getting housed through CES (32% successful housing placements). There are 842 active households in the CoC's CES, including 213 families, 48 youth, and 9 veterans.

Source: Data provided by the CoC.

Progress Toward Ending Homelessness

As of 2017, the Kansas City/Independence/Lee's Summit and Jackson and Wyandotte Counties CoC ended homelessness for veterans. This means that the number of veterans experiencing homelessness within the community is less than the average number of veterans being connected with permanent housing each month.

MO-606 Balance of State CoC
2019 Homelessness Study Fact Sheet

The Missouri Balance of State (BoS) Continuum of Care (CoC) is comprised of 101 counties across Missouri that together form one of Missouri's eight CoCs. The BoS CoC is broken out into 10 separate regions, grouped based on their geography throughout the state. In 2017, the BoS CoC separated from the Governor's Committee to End Homelessness, creating a new, separate CoC structure and adopting a new governance charter outlining this structure.

2014-2018 Point-in-Time Count: How many are experiencing homelessness

Legend: Total, Sheltered, Unsheltered

Source: 2014-2018 Point-in-Time (PIT) Count Data accessed via HDX.
Between 2014 and 2018 the CoC experienced a 12% decrease in overall homelessness from 1,528 to 1,345. During this same period, the CoC experienced a:

- 27% decrease in sheltered homelessness (1,341 to 983)
- 94% increase in unsheltered homelessness (187 to 362)

As of 2018:

- 23% of the state's population experiencing homelessness resides in the CoC
- 27% of people experiencing homelessness are unsheltered in the CoC compared to 21% across the state

2014-2018 Subpopulation Trends: Who is experiencing homelessness

Families

Family homelessness decreased 32%

| 2014	2015	2016	2017	2018
696	603	594	493	473

Unaccompanied Youth

The number of unaccompanied youth decreased 18% between 2015 (129) and 2018 (106)
- 68% of youth counted as unaccompanied were between the ages of 18 - 24 and 32% were < 18 years old

Race

4% Multiple Races 2% Other*
20% Black or African American
74% White

2014-2018, an average of 20% of those experiencing homelessness were Black or African American. But, as of 2018, 12% of the general population across the state identifies as Black or African American
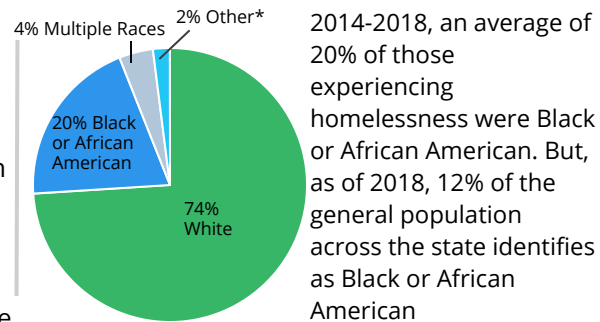

Domestic Violence

The number of people reporting experiences of domestic violence increased 24% from 280 in 2014 to 348 in 2018

Veterans

Veteran homelessness decreased 8% from 122 veterans in 2014 to 112 in 2018

Chronic Homelessness

Chronic homelessness increased 32% from 190 to 250 individuals.
2014	2015	2016	2017	2018
190	168	201	245	250

Coordinated Entry System Data

January 2019 marks full implementation of Coordinated Entry System (CES) data collection in HMIS for the BoS CoC. Since this date, the BoS CoC completed 591 assessments using the VI-SPDAT tool and housed 115 people through the CES.

Source: Data provided by the Balance of State CoC HMIS lead, ICA.

Progress Toward Ending Homelessness

The BoS CoC has yet to end homelessness across the CoC, but the community of Poplar Bluff, located in the CoC, is the first rural community to end veterans homelessness (as of 2019). This means that the number of veterans experiencing homelessness within the community is less than the average number of veterans being connected with permanent housing each month.

2019 Missouri Homelessness Study Appendix Glossary

The following appendices are organized by CoC, with each consisting of the five sub-sections described below.

TOTAL NUMBER OF PEOPLE EXPERIENCING HOMELESSNESS OVER TIME

This section summarizes total homeless counts over time. It breaks down PIT totals by gender, race, ethnicity, subpopulations, and unaccompanied youth/parenting youth/children of parenting youth.

- Data Source: PIT Data
- Years: 2014-2018[1]

SHELTERED VS. UNSHELTERED OVER TIME

This section summarizes PIT data by sheltered and unsheltered counts. It breaks down pit data by gender, race, ethnicity, subpopulations, and unaccompanied youth and sheltered/unsheltered status.

- Data Source: PIT Data
- Years: 2014-2018[1]

UTILIZATION BY HOUSING TYPE OVER TIME

This section summarizes housing type (emergency shelter, permanent supportive housing, and transitional housing) by utilization across demographics (gender, race, ethnicity, and subpopulation). For example, it breaks down the percentage of emergency shelter beds that are occupied by men versus women, the percentage of permanent supportive housing beds that are occupied by one race versus others, and the percentage of transitional housing beds that are used by Hispanic/Latino versus Non-Hispanic/Latino.

- Data Source: AHAR Data
- Years: 2014-2017

PRIOR LIVING SITUATION

This section summarizes prior living situations by housing type (emergency shelter, permanent supportive housing, and transitional housing). It breaks down where individuals came from, and how long they stayed in their previous location, according to housing type.

- Data Source: AHAR Data
- Years: 2014-2017

SYSTEM PERFORMANCE MEASURES

This section summarizes 6 of the 7 System Performance Measures over time.[2] For more information about HUD System Performance Measures, see the *2019 Missouri Homeless Study Fact Sheet Glossary* on page 2 of this report.

- Data Source: System Performance Measure Data
- Years: 2015-2018

---

1 Unaccompanied youth, parenting youth, and children of parenting youth were not collected during 2014 PIT.

2 Not including System Performance Measure 6, which measures the outcomes of a population that Missouri CoCs currently do not have permission from HUD to serve under the CoC program.

TOTAL NUMBER PEOPLE EXPERIENCING HOMELESSNESS OVER TIME

All figures in this section utilize PIT data from 2014-2018, accessed via HUD HDX.

UTILIZATION BY HOUSING TYPE OVER TIME

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 000-13. TOTAL NUMBER OF SHELTERED PERSONS (SINGLE INDIVIDUALS) BY TYPE OF HOUSING, 2014-2017
Legend:
- ■ Emergency Shelter
- ■ Permanent Supportive
- ■ Transitional Housing

Emergency Shelter: 5,621 (2014), 5,407 (2015), 7,102 (2016), 4,898 (2017)
Permanent Supportive: 2,665 (2014), 3,051 (2015), 3,177 (2016), 2,061 (2017)
Transitional Housing: 1,120 (2014), 1,140 (2015), 780 (2016), 618 (2017)

"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Not all CoCs offer each type of housing.

Figure 000-14. TOTAL NUMBER OF SHELTERED PERSONS (INDIVIDUALS IN FAMILIES) BY TYPE OF HOUSING, 2014-2017

Legend:
- ■ Emergency Shelter
- ■ Permanent Supportive
- ■ Transitional Housing

Emergency Shelter: 3,792 (2014), 3,101 (2015), 3,651 (2016), 2,298 (2017)
Permanent Supportive: 3,112 (2014), 3,495 (2015), 2,821 (2016), 1,932 (2017)
Transitional Housing: 1,854 (2014), 1,231 (2015), 1,260 (2016), 694 (2017)

"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Not all CoCs offer each type of housing.

Figure 000-15. AVERAGE UTILIZATION OF HOUSING TYPE BY GENDER (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES) ACROSS ALL COCS, 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families

	Native Hawaiian	0%	1%	0%	0%	0%	0%	0%	0%
	Multiple Races	2%	6%	3%	6%	4%	3%	4%	6%

Percentages may not add up to 100 due to either 1) rounding, and/or 2) omission of "Unknown" values (e.g. White, Black, Asian, Unknown).

Figure 000-17. AVERAGE UTILIZATION OF HOUSING TYPE BY ETHNICITY (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES) ACROSS ALL COCS, 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Hispanic/Latino	4%	4%	4%	3%	4%	6%	4%	3%
	Non-Hispanic/Non-Latino	95%	94%	94%	96%	95%	93%	95%	97%
Permanent Supportive	Hispanic/Latino	2%	3%	2%	3%	2%	4%	1%	7%
	Non-Hispanic/Non-Latino	97%	97%	98%	97%	98%	95%	99%	93%
Transitional Housing	Hispanic/Latino	4%	4%	4%	3%	4%	3%	5%	3%
	Non-Hispanic/Non-Latino	96%	95%	97%	95%	96%	97%	96%	96%

Calculated by averaging utilization data across all 8 Missouri CoCs. Where CoCs did not have data, null values were removed from the calculation.
Percentages may not add up to 100 due to either 1) rounding, and/or 2) omission of "Unknown" values (e.g. Hispanic/Latino, Non-Hispanic/Non-Latino, Unknown).

Figure 000-18. AVERAGE UTILIZATION OF HOUSING TYPE BY SUBPOPULATION (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES) ACROSS ALL COCS, 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Veterans	8%	1%	10%	2%	7%	3%	10%	3%
	Disabled	26%	18%	36%	26%	34%	35%	39%	29%
Permanent Supportive	Veterans	8%	1%	12%	2%	9%	1%	7%	2%
	Disabled	84%	72%	88%	75%	90%	76%	91%	81%
Transitional Housing	Veterans	55%	3%	46%	2%	51%	2%	51%	3%
	Disabled	57%	15%	60%	17%	66%	28%	60%	22%

Only "Veteran" and "Disabled" are listed in this figure because they are the only subpopulations that appear on the AHAR.
Because the percentages reflect the portion of the whole population served, and because individuals can identify with multiple subpopulation groups, percentages will not add up to 100%.
Calculated by averaging utilization data across all 8 Missouri CoCs. Where CoCs did not have data, null values were removed from the calculation.

Figure 000-19. UTILIZATION OF HOUSING TYPE BY ADULT/CHILD (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families

	Child	2%	63%	1%	64%	2%	65%	2%	63%

Calculated by averaging utilization data across all 8 Missouri CoCs. Where CoCs did not have data, null values were removed from the calculation.
PRIOR LIVING SITUATION

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 000-20. LIVING ARRANGEMENTS IMMEDIATELY PRIOR TO EXPERIENCING HOMELESSNESS, 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Homeless Situations	Emergency Shelter	32%	20%	31%	28%	35%	20%	40%	39%
	Permanent Supportive	80%	79%	83%	86%	87%	91%	78%	89%
	Transitional Housing	55%	54%	54%	52%	47%	53%	31%	47%
Housing Situations	Emergency Shelter	39%	42%	31%	49%	34%	52%	31%	41%
	Permanent Supportive	13%	12%	10%	6%	7%	6%	6%	6%
	Transitional Housing	22%	35%	22%	37%	23%	34%	17%	24%
Institutional Situations	Emergency Shelter	8%	1%	7%	1%	5%	1%	6%	2%
	Permanent Supportive	3%	4%	2%	2%	2%	0%	2%	0%
	Transitional Housing	17%	3%	15%	3%	23%	4%	24%	3%
Other/ Unknown Situations	Emergency Shelter	18%	38%	29%	23%	23%	26%	21%	19%
	Permanent Supportive	5%	6%	5%	6%	4%	3%	13%	5%
	Transitional Housing	6%	6%	9%	10%	7%	10%	28%	27%

- *Homeless Situations include "Place not meant for human habitation," "Emergency shelter," and "Transitional housing."*
- *Housing Situations include "Permanent supportive housing," "Rented housing unit," "Owned housing unit," "Staying with family or friends."*
- *Institutional Settings include "Psychiatric facility," "Substance abuse treatment center," "Hospital (non-psychiatric)," "Jail, prison, or juvenile detention."*
- *Other/Unknown Situations include "Hotel or motel (no voucher)," "Foster care home," "Other living situation," and "Unknown setting."*

Percentages reflect the portion of the total population served in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) in the given year. When adding the percentages across a housing type within a given year, the percentages may not add up to 100 due to rounding.

Figure 000-21. LENGTH OF STAY IN PREVIOUS LIVING ARRANGEMENT BY CURRENT HOUSING TYPE, AVERAGED ACROSS ALL YEARS AND COCS (2014-2017)

	<1 Week		1 Week-1 Month		1 Month-1 Year		1+ Years		Unknown	
	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	32%	33%	15%	18%	22%	27%	12%	8%	20%	14%
Permanent Supportive	12%	14%	21%	20%	45%	50%	17%	13%	5%	3%
Transitional Housing	21%	15%	24%	20%	38%	53%	9%	6%	8%	7%

Percentages reflect the portion of the total population of singles or families served (as appropriate) in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) across all years. When adding the percentages across a housing type, the percentages may not add up to 100 due to rounding.

SYSTEM PERFORMANCE MEASURES

All figures in this section utilize SPM data from 2015-2018. Data from 2015-2017 accessed via HUD's System Performance Summary. SPM data from 2018 accessed via HUD HDX.

Figure 000-22. SYSTEM PERFORMANCE MEASURE 1: AVERAGE MEDIAN NUMBER OF BED NIGHTS IN EMERGENCY SHELTER, SAFE HAVENS, AND TRANSITIONAL HOUSING ACROSS ALL COCS, 2015-2018
Figure 000-23. SYSTEM PERFORMANCE MEASURE 2: AVERAGE RETURNS TO HOMELESSNESS BY TYPE OF EXIT ACROSS ALL COCS, 2015-2018
Percentages were derived by calculating the averages of each category of time (e.g. <6 months, 6-12 months, 1-2 years) for each exit type and year for each Missouri CoC, and then deriving the average across CoCs.

Figure 000-24. SYSTEM PERFORMANCE MEASURE 4: AVERAGE PERCENTAGE OF STAYERS THAT INCREASED INCOME BY TYPE OF INCOME ACROSS ALL COCS, 2015-2018
Figure 000-25. SYSTEM PERFORMANCE MEASURE 4: AVERAGE PERCENTAGE OF LEAVERS THAT INCREASED INCOME BY TYPE OF INCOME ACROSS ALL COCS, 2015-2018
Figure 000-26. SYSTEM PERFORMANCE MEASURE 5: AVERAGE TOTAL NUMBER OF PERSONS ENTERING EMERGENCY SHELTERS, SAFE HAVENS, TRANSITIONAL HOUSING, OR PERMANENT SUPPORTIVE HOUSING FOR THE FIRST TIME ACROSS ALL COCS, 2015-2018
Figure 000-27. SYSTEM PERFORMANCE MEASURE 7: AVERAGE CHANGE IN SUCCESSFUL OUTCOMES ACROSS ALL COCS, 2015-2018
ES=Emergency Shelter, TH=Transitional Housing, SH=Safe Haven, PH="Permanent Housing," RRH="Rapid Re-Housing"

Missouri Statewide Overview

TOTAL NUMBER PEOPLE EXPERIENCING HOMELESSNESS OVER TIME

All figures in this section utilize PIT data from 2014-2018, accessed via HUD HDX.

Figure 500-1. TOTAL NUMBER OF PERSONS EXPERIENCING HOMELESSNESS BY SHELTER STATUS, 2014-2018
Figure 500-2. TOTAL NUMBER OF PERSONS (IN FAMILIES) EXPERIENCING HOMELESSNESS BY SHELTER STATUS, 2014-2018
Figure 500-3. TOTAL NUMBER OF PERSONS EXPERIENCING HOMELESSNESS BY GENDER, 2014-2018
Figure 500-4. TOTAL NUMBER OF PERSONS EXPERIENCING HOMELESSNESS BY RACE, 2014-2018

Legend: 2014, 2015, 2016, 2017, 2018

Race	2014	2015	2016	2017	2018
American Indian	0	0	0	2	3
Asian	4	0	1	1	3
Black	308	344	301	359	342

	Unsheltered	4	13	12	3

Unaccompanied youth, parenting youth, children of parenting youth data not collected during 2014 PIT Count.

UTILIZATION BY HOUSING TYPE OVER TIME

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 500-13. TOTAL NUMBER OF SHELTERED PERSONS (SINGLE INDIVIDUALS) BY TYPE OF HOUSING, 2014-2017
Legend:
- Emergency Shelter
- Permanent Supportive
- Transitional Housing

Data points: 585, 186, 146, 159, 136, 94, 132, 168

Years: 2014, 2015, 2016, 2017

"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 500-14. TOTAL NUMBER OF SHELTERED PERSONS (INDIVIDUALS IN FAMILIES) BY TYPE OF HOUSING, 2014-2017

Legend:
- Emergency Shelter
- Permanent Supportive
- Transitional Housing

Data points: 894, 502, 526, 620, 221, 206, 206, 191, 68, 49, 83

Years: 2014, 2015, 2016, 2017

"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 500-15. UTILIZATION OF HOUSING TYPE BY GENDER (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Male	-	35%	-	37%	26%	40%	50%	44%

	Native Hawaiian	-	-	0%	0%	0%	0%	-	0%
	Multiple Races	-	-	5%	0%	4%	0%	-	2%

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.
Percentages may not add up to 100 due to either 1) rounding, and/or 2) omission of "Unknown" values (e.g. White, Black, Asian, Unknown).

Figure 500-17. UTILIZATION OF HOUSING TYPE BY ETHNICITY (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Hispanic/Latino	-	3%	-	1%	3%	1%	3%	3%
	Non-Hispanic/Non-Latino	-	97%	-	97%	96%	99%	96%	97%
Permanent Supportive	Hispanic/Latino	1%	0%	1%	0%	1%	0%	0%	1%
	Non-Hispanic/Non-Latino	99%	100%	99%	99%	99%	100%	100%	99%
Transitional Housing	Hispanic/Latino	-	-	-	0%	3%	0%	-	0%
	Non-Hispanic/Non-Latino	-	-	97%	100%	97%	100%	-	100%

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.
Percentages may not add up to 100 due to either 1) rounding, and/or 2) omission of "Unknown" values (e.g. Hispanic/Latino, Non-Hispanic/Non-Latino, Unknown).

Figure 500-18. UTILIZATION OF HOUSING TYPE BY SUBPOPULATION (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Veterans	-	1%	-	3%	9%	2%	17%	6%
	Disabled	-	35%	-	38%	68%	54%	49%	29%
Permanent Supportive	Veterans	10%	0%	11%	1%	11%	1%	11%	2%
	Disabled	82%	63%	86%	66%	88%	67%	82%	71%
Transitional Housing	Veterans	-	-	49%	0%	50%	0%	-	0%
	Disabled	-	-	46%	16%	46%	26%	-	3%

Only "Veteran" and "Disabled" are listed in this figure because they are the only subpopulations that appear on the AHAR.
Because the percentages reflect the portion of the whole population served, and because individuals can identify with multiple subpopulation groups, percentages will not add up to 100%.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 500-19. UTILIZATION OF HOUSING TYPE BY ADULT/CHILD (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Adult	-	36%	-	33%	66%	37%	78%	37%
	Child	-	64%	-	67%	34%	63%	22%	63%
Permanent Supportive	Adult	100%	43%	100%	43%	99%	45%	100%	44%
	Child	0%	57%	0%	57%	1%	55%	0%	56%
Transitional Housing	Adult	-	-	99%	37%	99%	39%	-	41%
	Child	-	-	1%	63%	1%	61%	-	59%

Calculated using "Number of Sheltered Adults" and "Number of Sheltered Children" for both Single Individuals and Individuals in Families.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

PRIOR LIVING SITUATION

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 500-20. LIVING ARRANGEMENTS IMMEDIATELY PRIOR TO EXPERIENCING HOMELESSNESS, 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Homeless Situations	Emergency Shelter	-	19%	-	10%	25%	18%	49%	39%
	Permanent Supportive	91%	87%	97%	82%	99%	99%	99%	97%
	Transitional Housing	-	-	43%	72%	45%	58%	-	39%
Housing Situations	Emergency Shelter	-	63%	-	68%	52%	63%	37%	47%
	Permanent Supportive	4%	5%	2%	2%	1%	2%	1%	0%
	Transitional Housing	-	-	24%	28%	25%	37%	-	47%
Institutional Situations	Emergency Shelter	-	3%	-	1%	5%	1%	3%	2%
	Permanent Supportive	4%	3%	0%	0%	0%	0%	1%	0%
	Transitional Housing	-	-	21%	0%	22%	0%	-	0%
Other/ Unknown Situations	Emergency Shelter	-	16%	-	21%	17%	19%	7%	11%
	Permanent Supportive	2%	5%	1%	15%	0%	0%	1%	3%
	Transitional Housing	-	-	10%	0%	9%	5%	-	15%

- *Homeless Situations include "Place not meant for human habitation," "Emergency shelter," and "Transitional housing."*
- *Housing Situations include "Permanent supportive housing," "Rented housing unit," "Owned housing unit," "Staying with family or friends."*
- *Institutional Settings include "Psychiatric facility," "Substance abuse treatment center," "Hospital (non-psychiatric)," "Jail, prison, or juvenile detention."*
- *Other/Unknown Situations include "Hotel or motel (no voucher)," "Foster care home," "Other living situation," and "Unknown setting."*

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.
Percentages reflect the portion of the total population served in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) in the given year. When adding the percentages across a housing type within a given year, the percentages may not add up to 100 due to rounding.

Figure 500-21. LENGTH OF STAY IN PREVIOUS LIVING ARRANGEMENT BY CURRENT HOUSING TYPE, AVERAGED ACROSS ALL YEARS (2014-2017)

	<1 Week		1 Week-1 Month		1 Month-1 Year		1+ Years		Unknown	
	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	36%	52%	15%	24%	26%	18%	18%	4%	7%	3%
Permanent Supportive	15%	18%	30%	32%	36%	43%	15%	4%	4%	3%
Transitional Housing	15%	13%	31%	6%	36%	71%	16%	10%	4%	1%

Percentages were derived by calculating the averages of each category of time (e.g. <1 week, 1 Week-1 Month, 1 Month-1 Year, 1+ Years, and Unknown)) across all 4 years of data. Where CoC did not have data, null values were removed from calculations.
Percentages reflect the portion of the total population of singles or families served (as appropriate) in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) across all years. When adding the percentages across a housing type, the percentages may not add up to 100 due to rounding.

SYSTEM PERFORMANCE MEASURES

All figures in this section utilize SPM data from 2015-2018. Data from 2015-2017 accessed via [HUD's System Performance Summary](). SPM data from 2018 accessed via HUD HDX.

Figure 500-22. SYSTEM PERFORMANCE MEASURE 1: MEDIAN NUMBER OF BED NIGHTS IN EMERGENCY SHELTER, SAFE HAVENS, AND TRANSITIONAL HOUSING, 2015-2018
Figure 500-23. SYSTEM PERFORMANCE MEASURE 2: RETURNS TO HOMELESSNESS BY TYPE OF EXIT, 2015-2018
Percentages were derived by calculating the averages of each category of time (e.g. <6 months, 6-12 months, 1-2 years) for each exit type and year.

Figure 500-24. SYSTEM PERFORMANCE MEASURE 4: PERCENTAGE OF STAYERS THAT INCREASED INCOME BY TYPE OF INCOME, 2015-2018

Unaccompanied youth, parenting youth, children of parenting youth data not collected during 2014 PIT Count.

UTILIZATION BY HOUSING TYPE OVER TIME

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 501-13. TOTAL NUMBER OF SHELTERED PERSONS (SINGLE INDIVIDUALS) BY TYPE OF HOUSING, 2014-2017
■ Emergency Shelter
■ Permanent Supportive
■ Transitional Housing

"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 501-14. TOTAL NUMBER OF SHELTERED PERSONS (INDIVIDUALS IN FAMILIES) BY TYPE OF HOUSING, 2014-2017
■ Emergency Shelter
■ Permanent Supportive
■ Transitional Housing

"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 501-15. UTILIZATION OF HOUSING TYPE BY GENDER (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Male	53%	37%	58%	34%	80%	36%	69%	34%
	Female	47%	63%	42%	66%	20%	64%	31%	66%
Permanent Supportive	Male	47%	36%	47%	38%	47%	36%	47%	37%
	Female	53%	64%	53%	62%	53%	64%	53%	63%
Transitional Housing	Male	62%	35%	63%	36%	68%	34%	74%	41%
	Female	38%	65%	37%	64%	32%	66%	25%	59%

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.
Percentages may not add up to 100. This is due to either 1) rounding, or because "Unknown" values were not included (e.g. Male, Female, Unknown).

Figure 501-16. UTILIZATION OF HOUSING TYPE BY RACE (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families

	Non-Hispanic/Non-Latino	99%	99%	99%	99%	99%	98%	99%	97%
Transitional Housing	Hispanic/Latino	1%	3%	2%	1%	2%	2%	3%	0%
	Non-Hispanic/Non-Latino	96%	97%	97%	98%	97%	98%	98%	100%

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.
Percentages may not add up to 100 due to either 1) rounding, and/or 2) omission of "Unknown" values (e.g. Hispanic/Latino, Non-Hispanic/Non-Latino, Unknown).

Figure 501-18. UTILIZATION OF HOUSING TYPE BY SUBPOPULATION (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Veterans	3%	0%	4%	1%	12%	1%	8%	1%
	Disabled	68%	37%	33%	23%	50%	44%	58%	19%
Permanent Supportive	Veterans	8%	1%	7%	1%	7%	1%	6%	2%
	Disabled	82%	77%	90%	76%	93%	78%	94%	81%
Transitional Housing	Veterans	23%	0%	42%	1%	50%	0%	54%	1%
	Disabled	58%	19%	58%	21%	71%	48%	68%	38%

Only "Veteran" and "Disabled" are listed in this figure because they are the only subpopulations that appear on the AHAR.
Because the percentages reflect the portion of the whole population served, and because individuals can identify with multiple subpopulation groups, percentages will not add up to 100%.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 501-19. UTILIZATION OF HOUSING TYPE BY ADULT/CHILD (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Adult	99%	35%	100%	36%	97%	34%	97%	35%
	Child	1%	65%	0%	64%	3%	66%	3%	65%
Permanent Supportive	Adult	100%	42%	100%	41%	100%	40%	100%	40%
	Child	0%	58%	0%	59%	0%	60%	0%	60%
Transitional Housing	Adult	96%	33%	99%	32%	97%	32%	99%	33%
	Child	4%	67%	1%	68%	3%	68%	1%	67%

Calculated using "Number of Sheltered Adults" and "Number of Sheltered Children" for both Single Individuals and Individuals in Families.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

PRIOR LIVING SITUATION

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 501-20. LIVING ARRANGEMENTS IMMEDIATELY PRIOR TO EXPERIENCING HOMELESSNESS, 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Homeless Situations	Emergency Shelter	55%	27%	59%	26%	48%	24%	68%	32%
	Permanent Supportive	89%	64%	91%	87%	91%	88%	93%	89%
	Transitional Housing	57%	74%	75%	73%	70%	78%	57%	80%
Housing Situations	Emergency Shelter	33%	61%	29%	62%	21%	61%	20%	53%
	Permanent Supportive	5%	15%	4%	9%	6%	10%	5%	9%
	Transitional Housing	20%	15%	8%	13%	9%	13%	13%	11%
Institutional Situations	Emergency Shelter	8%	1%	2%	1%	2%	2%	3%	4%
	Permanent Supportive	3%	16%	2%	2%	2%	1%	2%	1%
	Transitional Housing	19%	7%	14%	7%	17%	5%	24%	5%

	Permanent Supportive	4%	5%	2%	1%	1%	1%	0%	0%
	Transitional Housing	4%	2%	3%	9%	3%	4%	6%	4%

- *Homeless Situations include "Place not meant for human habitation," "Emergency shelter," and "Transitional housing."*
- *Housing Situations include "Permanent supportive housing," "Rented housing unit," "Owned housing unit," "Staying with family or friends."*
- *Institutional Settings include "Psychiatric facility," "Substance abuse treatment center," "Hospital (non-psychiatric)," "Jail, prison, or juvenile detention."*
- *Other/Unknown Situations include "Hotel or motel (no voucher)," "Foster care home," " Other living situation," and "Unknown setting."*

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Percentages reflect the portion of the total population served in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) in the given year. When adding the percentages across a housing type within a given year, the percentages may not add up to 100 due to rounding.

Figure 501-21. LENGTH OF STAY IN PREVIOUS LIVING ARRANGEMENT BY CURRENT HOUSING TYPE, AVERAGED ACROSS ALL YEARS (2014-2017)

	<1 Week		1 Week-1 Month		1 Month-1 Year		1+ Years		Unknown	
	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	50%	52%	19%	18%	18%	21%	5%	5%	9%	4%
Permanent Supportive	11%	12%	24%	26%	45%	51%	15%	10%	5%	3%
Transitional Housing	21%	24%	33%	18%	37%	55%	8%	2%	2%	2%

Percentages were derived by calculating the averages of each category of time (e.g. <1 week, 1 Week-1 Month, 1 Month-1 Year, 1+ Years, and Unknown)) across all 4 years of data. Where CoC did not have data, null values were removed from calculations.

Percentages reflect the portion of the total population of singles or families served (as appropriate) in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) across all years. When adding the percentages across a housing type, the percentages may not add up to 100 due to rounding.

SYSTEM PERFORMANCE MEASURES

All figures in this section utilize SPM data from 2015-2018. Data from 2015-2017 accessed via HUD's System Performance Summary. SPM data from 2018 accessed via HUD HDX.

Figure 501-22. SYSTEM PERFORMANCE MEASURE 1: MEDIAN NUMBER OF BED NIGHTS IN EMERGENCY SHELTER, SAFE HAVENS, AND TRANSITIONAL HOUSING, 2015-2018
Figure 501-23. SYSTEM PERFORMANCE MEASURE 2: RETURNS TO HOMELESSNESS BY TYPE OF EXIT, 2015-2018
Percentages were derived by calculating the averages of each category of time (e.g. <6 months, 6-12 months, 1-2 years) for each exit type and year.

UTILIZATION BY HOUSING TYPE OVER TIME

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 503-13. TOTAL NUMBER OF SHELTERED PERSONS (SINGLE INDIVIDUALS) BY TYPE OF HOUSING, 2014-2017
■ Emergency Shelter
■ Permanent Supportive
■ Transitional Housing

"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 503-14. TOTAL NUMBER OF SHELTERED PERSONS (INDIVIDUALS IN FAMILIES) BY TYPE OF HOUSING, 2014-2017

■ Emergency Shelter
■ Permanent Supportive
■ Transitional Housing
"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 503-15. UTILIZATION OF HOUSING TYPE BY GENDER (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017

	Native Hawaiian	-	-	-	-	-	-	-	-
	Multiple Races	-	-	-	-	-	-	-	-

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.
Percentages may not add up to 100 due to either 1) rounding, and/or 2) omission of "Unknown" values (e.g. White, Black, Asian, Unknown).

Figure 503-17. UTILIZATION OF HOUSING TYPE BY ETHNICITY (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Hispanic/Latino	3%	3%	-	-	2%	4%	5%	4%
	Non-Hispanic/Non-Latino	95%	95%	-	-	98%	95%	95%	95%
Permanent Supportive	Hispanic/Latino	6%	5%	10%	-	7%	7%	2%	9%
	Non-Hispanic/Non-Latino	94%	95%	90%	-	93%	93%	98%	91%
Transitional Housing	Hispanic/Latino	-	-	-	-	-	-	-	-
	Non-Hispanic/Non-Latino	-	-	-	-	-	-	-	-

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.
Percentages may not add up to 100 due to either 1) rounding, and/or 2) omission of "Unknown" values (e.g. Hispanic/Latino, Non-Hispanic/Non-Latino, Unknown).

Figure 503-18. UTILIZATION OF HOUSING TYPE BY SUBPOPULATION (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Veterans	2%	1%	-	-	1%	0%	3%	0%
	Disabled	15%	15%	-	-	19%	13%	20%	22%
Permanent Supportive	Veterans	3%	0%	3%	-	3%	0%	2%	0%
	Disabled	81%	73%	87%	-	90%	90%	93%	88%
Transitional Housing	Veterans	-	-	-	-	-	-	-	-
	Disabled	-	-	-	-	-	-	-	-

Only "Veteran" and "Disabled" are listed in this figure because they are the only subpopulations that appear on the AHAR.
Because the percentages reflect the portion of the whole population served, and because individuals can identify with multiple subpopulation groups, percentages will not add up to 100%.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 503-19. UTILIZATION OF HOUSING TYPE BY ADULT/CHILD (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Adult	63%	42%	-	-	61%	37%	57%	38%
	Child	37%	58%	-	-	39%	63%	43%	62%
Permanent Supportive	Adult	100%	38%	100%	-	100%	36%	100%	36%
	Child	0%	63%	0%	-	0%	64%	0%	64%
Transitional Housing	Adult	-	-	-	-	-	-	-	-
	Child	-	-	-	-	-	-	-	-

Calculated using "Number of Sheltered Adults" and "Number of Sheltered Children" for both Single Individuals and Individuals in Families.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

ADVANCING SOLUTIONS TO HOMELESSNESS

PRIOR LIVING SITUATION

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 503-20. LIVING ARRANGEMENTS IMMEDIATELY PRIOR TO EXPERIENCING HOMELESSNESS, 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Homeless Situations	Emergency Shelter	17%	23%	-	-	30%	26%	39%	58%
	Permanent Supportive	91%	86%	96%	-	87%	90%	66%	95%
	Transitional Housing	-	-	-	-	-	-	-	-
Housing Situations	Emergency Shelter	59%	44%	-	-	54%	62%	49%	24%
	Permanent Supportive	9%	7%	3%	-	10%	5%	22%	6%
	Transitional Housing	-	-	-	-	-	-	-	-
Institutional Situations	Emergency Shelter	7%	0%	-	-	4%	2%	5%	2%
	Permanent Supportive	0%	0%	0%	-	0%	0%	4%	0%
	Transitional Housing	-	-	-	-	-	-	-	-
Other/ Unknown Situations	Emergency Shelter	13%	32%	-	-	6%	10%	4%	16%
	Permanent Supportive	0%	7%	0%	-	3%	5%	6%	0%
	Transitional Housing	-	-	-	-	-	-	-	-

- *Homeless Situations include "Place not meant for human habitation," "Emergency shelter," and "Transitional housing."*
- *Housing Situations include "Permanent supportive housing," "Rented housing unit," "Owned housing unit," "Staying with family or friends."*
- *Institutional Settings include "Psychiatric facility," "Substance abuse treatment center," "Hospital (non-psychiatric)," "Jail, prison, or juvenile detention."*
- *Other/Unknown Situations include "Hotel or motel (no voucher)," "Foster care home," " Other living situation," and "Unknown setting."*

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Percentages reflect the portion of the total population served in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) in the given year. When adding the percentages across a housing type within a given year, the percentages may not add up to 100 due to rounding.

Figure 503-21. LENGTH OF STAY IN PREVIOUS LIVING ARRANGEMENT BY CURRENT HOUSING TYPE, AVERAGED ACROSS ALL YEARS (2014-2017)

	<1 Week		1 Week-1 Month		1 Month-1 Year		1+ Years		Unknown	
	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	28%	29%	19%	24%	29%	40%	23%	4%	2%	3%
Permanent Supportive	18%	14%	27%	21%	38%	42%	12%	23%	5%	0%
Transitional Housing	-	-	-	-	-	-	-	-	-	-

Percentages were derived by calculating the averages of each category of time (e.g. <1 week, 1 Week-1 Month, 1 Month-1 Year, 1+ Years, and Unknown)) across all 4 years of data. Where CoC did not have data, null values were removed from calculations.

Percentages reflect the portion of the total population of singles or families served (as appropriate) in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) across all years. When adding the percentages across a housing type, the percentages may not add up to 100 due to rounding.

SYSTEM PERFORMANCE MEASURES

Unaccompanied youth, parenting youth, children of parenting youth data not collected during 2014 PIT Count.

UTILIZATION BY HOUSING TYPE OVER TIME

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 600-13. TOTAL NUMBER OF SHELTERED PERSONS (SINGLE INDIVIDUALS) BY TYPE OF HOUSING, 2014-2017
- ■ Emergency Shelter
- ■ Permanent Supportive
- ■ Transitional Housing

"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 600-14. TOTAL NUMBER OF SHELTERED PERSONS (INDIVIDUALS IN FAMILIES) BY TYPE OF HOUSING, 2014-2017

- ■ Emergency Shelter
- ■ Permanent Supportive
- ■ Transitional Housing
"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 600-15. UTILIZATION OF HOUSING TYPE BY GENDER (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Male	28%	43%	23%	43%	33%	38%	31%	39%

	Non-Hispanic/Non-Latino	96%	99%	100%	99%	99%	97%	100%	97%
Transitional Housing	Hispanic/Latino	-	3%	5%	0%	6%	4%	5%	10%
	Non-Hispanic/Non-Latino	-	97%	97%	100%	94%	96%	97%	90%

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.
Percentages may not add up to 100 due to either 1) rounding, and/or 2) omission of "Unknown" values (e.g. Hispanic/Latino, Non-Hispanic/Non-Latino, Unknown).

Figure 600-18. UTILIZATION OF HOUSING TYPE BY SUBPOPULATION (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Veterans	6%	2%	5%	3%	5%	7%	5%	0%
	Disabled	18%	17%	75%	59%	45%	76%	52%	76%
Permanent Supportive	Veterans	5%	3%	10%	3%	11%	3%	10%	3%
	Disabled	77%	81%	88%	85%	98%	87%	96%	84%
Transitional Housing	Veterans	-	4%	4%	2%	5%	7%	3%	7%
	Disabled	-	22%	74%	38%	46%	22%	43%	26%

Only "Veteran" and "Disabled" are listed in this figure because they are the only subpopulations that appear on the AHAR.
Because the percentages reflect the portion of the whole population served, and because individuals can identify with multiple subpopulation groups, percentages will not add up to 100%.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 600-19. UTILIZATION OF HOUSING TYPE BY ADULT/CHILD (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Adult	100%	44%	99%	42%	91%	41%	91%	37%
	Child	0%	56%	1%	58%	9%	59%	9%	63%
Permanent Supportive	Adult	100%	46%	99%	44%	100%	40%	100%	44%
	Child	0%	54%	1%	56%	0%	60%	0%	56%
Transitional Housing	Adult	-	44%	95%	46%	97%	43%	100%	48%
	Child	-	56%	5%	54%	3%	57%	0%	52%

Calculated using "Number of Sheltered Adults" and "Number of Sheltered Children" for both Single Individuals and Individuals in Families.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

PRIOR LIVING SITUATION

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 600-20. LIVING ARRANGEMENTS IMMEDIATELY PRIOR TO EXPERIENCING HOMELESSNESS, 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Homeless Situations	Emergency Shelter	38%	35%	32%	71%	29%	41%	48%	63%
	Permanent Supportive	70%	94%	63%	98%	77%	96%	90%	84%
	Transitional Housing	-	56%	63%	34%	64%	31%	57%	32%
Housing Situations	Emergency Shelter	37%	36%	35%	17%	34%	54%	33%	25%
	Permanent Supportive	19%	3%	26%	0%	17%	3%	5%	9%
	Transitional Housing	-	25%	25%	47%	30%	52%	29%	49%
Institutional Situations	Emergency Shelter	7%	0%	7%	0%	7%	0%	9%	0%
	Permanent Supportive	8%	0%	4%	0%	1%	0%	0%	0%
	Transitional Housing	-	0%	4%	0%	2%	6%	9%	4%
Other/ Unknown Situations	Emergency Shelter	15%	29%	20%	12%	24%	3%	8%	13%
	Permanent Supportive	3%	3%	6%	3%	4%	0%	5%	6%
	Transitional Housing	-	19%	8%	19%	5%	12%	6%	15%

- *Homeless Situations include "Place not meant for human habitation," "Emergency shelter," and "Transitional housing."*
- *Housing Situations include "Permanent supportive housing," "Rented housing unit," "Owned housing unit," "Staying with family or friends."*
- *Institutional Settings include "Psychiatric facility," "Substance abuse treatment center," "Hospital (non-psychiatric)," "Jail, prison, or juvenile detention."*
- *Other/Unknown Situations include "Hotel or motel (no voucher)," "Foster care home," " Other living situation," and "Unknown setting."*

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Percentages reflect the portion of the total population served in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) in the given year. When adding the percentages across a housing type within a given year, the percentages may not add up to 100 due to rounding.

Figure 600-21. LENGTH OF STAY IN PREVIOUS LIVING ARRANGEMENT BY CURRENT HOUSING TYPE, AVERAGED ACROSS ALL YEARS (2014-2017)

	<1 Week		1 Week-1 Month		1 Month-1 Year		1+ Years		Unknown	
	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	43%	32%	15%	21%	25%	36%	7%	11%	10%	1%
Permanent Supportive	6%	0%	9%	18%	58%	64%	27%	17%	1%	0%
Transitional Housing	26%	25%	32%	17%	33%	48%	6%	10%	2%	1%

Percentages were derived by calculating the averages of each category of time (e.g. <1 week, 1 Week-1 Month, 1 Month-1 Year, 1+ Years, and Unknown)) across all 4 years of data. Where CoC did not have data, null values were removed from calculations.

Percentages reflect the portion of the total population of singles or families served (as appropriate) in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) across all years. When adding the percentages across a housing type, the percentages may not add up to 100 due to rounding.

SYSTEM PERFORMANCE MEASURES

	Unsheltered	0	0	0	0	2
Mental Illness	Sheltered	14	11	37	0	12
	Unsheltered	6	6	13	16	11
Substance Use	Sheltered	35	68	54	67	48
	Unsheltered	2	5	6	10	10
Veterans	Sheltered	40	50	51	48	54
	Unsheltered	3	2	3	5	11

"Chronic" includes all Chronically Homeless persons, including adults and children.
All other subpopulations only include adults, as this information is not collected about children.
Categories of subpopulations are not mutually exclusive; as result, one individual may have been included in multiple categories.

Figure 602-12. TOTAL NUMBER OF UNACCOMPANIED YOUTH EXPERIENCING HOMELESSNESS BY SHELTER STATUS, 2015-2018

|		2015	2016	2017	2018
Unaccompanied Youth (<18 & 18-24)	Sheltered	8	17	5	10
	Unsheltered	1	2	2	2

Unaccompanied youth, parenting youth, children of parenting youth data not collected during 2014 PIT Count.

UTILIZATION BY HOUSING TYPE OVER TIME

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.
Figure 602-13. TOTAL NUMBER OF SHELTERED PERSONS (SINGLE INDIVIDUALS) BY TYPE OF HOUSING, 2014-2017
■ Emergency Shelter
■ Permanent Supportive
■ Transitional Housing

"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 602-14. TOTAL NUMBER OF SHELTERED PERSONS (INDIVIDUALS IN FAMILIES) BY TYPE OF HOUSING, 2014-2017

■ Emergency Shelter
■ Permanent Supportive
■ Transitional Housing

"Number of Sheltered Persons" on each AHAR does not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children"); therefore, for consistency, this chart reflects the sum of the number of sheltered adults and children.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 602-15. UTILIZATION OF HOUSING TYPE BY GENDER (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

	Non-Hispanic/Non-Latino	96%	93%	98%	92%	97%	99%	98%	100%

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.
Percentages may not add up to 100 due to either 1) rounding, and/or 2) omission of "Unknown" values (e.g. Hispanic/Latino, Non-Hispanic/Non-Latino, Unknown).

Figure 602-18. UTILIZATION OF HOUSING TYPE BY SUBPOPULATION (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Veterans	-	-	-	-	-	-	-	-
	Disabled	-	-	-	-	-	-	-	-
Permanent Supportive	Veterans	7%	0%	8%	0%	11%	0%	5%	0%
	Disabled	95%	84%	92%	78%	93%	71%	96%	83%
Transitional Housing	Veterans	86%	2%	97%	2%	98%	3%	96%	5%
	Disabled	78%	20%	93%	15%	100%	40%	98%	38%

Only "Veteran" and "Disabled" are listed in this figure because they are the only subpopulations that appear on the AHAR.
Because the percentages reflect the portion of the whole population served, and because individuals can identify with multiple subpopulation groups, percentages will not add up to 100%.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 602-19. UTILIZATION OF HOUSING TYPE BY ADULT/CHILD (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Adult	-	-	-	-	-	-	-	-
	Child	-	-	-	-	-	-	-	-
Permanent Supportive	Adult	100%	36%	100%	42%	100%	43%	100%	45%
	Child	0%	64%	0%	58%	0%	57%	0%	55%

	Child	4%	62%	0%	60%	0%	62%	0%	65%

Calculated using "Number of Sheltered Adults" and "Number of Sheltered Children" for both Single Individuals and Individuals in Families.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

PRIOR LIVING SITUATION

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 602-20. LIVING ARRANGEMENTS IMMEDIATELY PRIOR TO EXPERIENCING HOMELESSNESS, 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Homeless Situations	Emergency Shelter	-	-	-	-	-	-	-	-
	Permanent Supportive	89%	84%	84%	85%	88%	91%	87%	83%
	Transitional Housing	20%	56%	9%	69%	10%	73%	10%	82%
Housing Situations	Emergency Shelter	-	-	-	-	-	-	-	-
	Permanent Supportive	4%	5%	5%	7%	2%	10%	4%	4%
	Transitional Housing	35%	35%	34%	21%	28%	16%	25%	14%
Institutional Situations	Emergency Shelter	-	-	-	-	-	-	-	-
	Permanent Supportive	2%	5%	2%	4%	3%	0%	4%	0%
	Transitional Housing	38%	4%	39%	2%	51%	3%	63%	5%
Other/ Unknown Situations	Emergency Shelter	-	-	-	-	-	-	-	-
	Permanent Supportive	5%	5%	10%	4%	7%	0%	5%	13%
	Transitional Housing	6%	6%	16%	8%	11%	10%	1%	0%

- *Homeless Situations include "Place not meant for human habitation," "Emergency shelter," and "Transitional housing."*
- *Housing Situations include "Permanent supportive housing," "Rented housing unit," "Owned housing unit," "Staying with family or friends."*
- *Institutional Settings include "Psychiatric facility," "Substance abuse treatment center," "Hospital (non-psychiatric)," "Jail, prison, or juvenile detention."*
- *Other/Unknown Situations include "Hotel or motel (no voucher)," "Foster care home," " Other living situation," and "Unknown setting."*

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Percentages reflect the portion of the total population served in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) in the given year. When adding the percentages across a housing type within a given year, the percentages may not add up to 100 due to rounding.

Figure 602-21. LENGTH OF STAY IN PREVIOUS LIVING ARRANGEMENT BY CURRENT HOUSING TYPE, AVERAGED ACROSS ALL YEARS (2014-2017)

	<1 Week		1 Week-1 Month		1 Month-1 Year		1+ Years		Unknown	
	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	-	-	-	-	-	-	-	-	-	-
Permanent Supportive	11%	27%	25%	17%	55%	42%	9%	9%	1%	6%
Transitional Housing	35%	13%	26%	27%	25%	58%	12%	2%	3%	1%

Percentages were derived by calculating the averages of each category of time (e.g. <1 week, 1 Week-1 Month, 1 Month-1 Year, 1+ Years, and Unknown)) across all 4 years of data. Where CoC did not have data, null values were removed from calculations.

Percentages reflect the portion of the total population of singles or families served (as appropriate) in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) across all years. When adding the percentages across a housing type, the percentages may not add up to 100 due to rounding.

SYSTEM PERFORMANCE MEASURES

All figures in this section utilize SPM data from 2015-2018. Data from 2015-2017 accessed via HUD's System Performance Summary. SPM data from 2018 accessed via HUD HDX.

Figure 602-22. SYSTEM PERFORMANCE MEASURE 1: MEDIAN NUMBER OF BED NIGHTS IN EMERGENCY SHELTER, SAFE HAVENS, AND TRANSITIONAL HOUSING, 2015-2018

Figure 602-23. SYSTEM PERFORMANCE MEASURE 2: RETURNS TO HOMELESSNESS BY TYPE OF EXIT, 2015-2018
Percentages were derived by calculating the averages of each category of time (e.g. <6 months, 6-12 months, 1-2 years) for each exit type and year.

Figure 602-24. SYSTEM PERFORMANCE MEASURE 4: PERCENTAGE OF STAYERS THAT INCREASED INCOME BY TYPE OF INCOME, 2015-2018
Figure 602-25. SYSTEM PERFORMANCE MEASURE 4: PERCENTAGE OF LEAVERS THAT INCREASED INCOME BY TYPE OF INCOME, 2015-2018
Figure 602-26. SYSTEM PERFORMANCE MEASURE 5: TOTAL NUMBER OF PERSONS ENTERING EMERGENCY SHELTERS, SAFE HAVENS, TRANSITIONAL HOUSING, OR PERMANENT SUPPORTIVE HOUSING FOR THE FIRST TIME, 2015-2018

Transitional Housing	Hispanic/Latino	6%	0%	4%	0%	-	-	6%	6%
	Non-Hispanic/Non-Latino	98%	95%	100%	87%	-	-	89%	88%

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.
Percentages may not add up to 100 due to either 1) rounding, and/or 2) omission of "Unknown" values (e.g. Hispanic/Latino, Non-Hispanic/Non-Latino, Unknown).

Figure 603-18. UTILIZATION OF HOUSING TYPE BY SUBPOPULATION (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Veterans	21%	0%	12%	0%	11%	5%	8%	0%
	Disabled	18%	3%	11%	7%	14%	18%	17%	6%
Permanent Supportive	Veterans	17%	0%	18%	0%	14%	0%	12%	5%
	Disabled	84%	56%	92%	74%	82%	60%	83%	73%
Transitional Housing	Veterans	70%	7%	44%	4%	-	-	50%	0%
	Disabled	38%	7%	22%	4%	-	-	29%	3%

Only "Veteran" and "Disabled" are listed in this figure because they are the only subpopulations that appear on the AHAR.
Because the percentages reflect the portion of the whole population served, and because individuals can identify with multiple subpopulation groups, percentages will not add up to 100%.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 603-19. UTILIZATION OF HOUSING TYPE BY ADULT/CHILD (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Adult	100%	42%	100%	34%	100%	35%	99%	38%
	Child	0%	58%	0%	66%	0%	65%	1%	62%
Permanent Supportive	Adult	100%	39%	100%	38%	100%	42%	100%	39%
	Child	0%	61%	0%	62%	0%	58%	0%	61%
Transitional Housing	Adult	100%	37%	100%	37%	-	-	86%	35%
	Child	0%	63%	0%	63%	-	-	14%	65%

Calculated using "Number of Sheltered Adults" and "Number of Sheltered Children" for both Single Individuals and Individuals in Families.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

PRIOR LIVING SITUATION

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 603-20. LIVING ARRANGEMENTS IMMEDIATELY PRIOR TO EXPERIENCING HOMELESSNESS, 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Homeless Situations	Emergency Shelter	29%	6%	16%	7%	17%	10%	3%	3%
	Permanent Supportive	53%	54%	61%	84%	90%	93%	22%	83%
	Transitional Housing	72%	21%	60%	22%	-	-	0%	0%
Housing Situations	Emergency Shelter	45%	33%	29%	94%	27%	36%	9%	53%
	Permanent Supportive	39%	32%	23%	2%	6%	2%	1%	8%
	Transitional Housing	16%	78%	22%	70%	-	-	2%	0%
Institutional Situations	Emergency Shelter	14%	0%	9%	0%	8%	0%	3%	0%
	Permanent Supportive	0%	0%	2%	2%	1%	0%	1%	0%
	Transitional Housing	6%	0%	8%	0%	-	-	0%	0%
Other/ Unknown Situations	Emergency Shelter	10%	61%	45%	0%	48%	55%	84%	44%
	Permanent Supportive	9%	15%	13%	12%	1%	5%	75%	10%
	Transitional Housing	6%	0%	10%	9%	-	-	97%	100%

- *Homeless Situations include "Place not meant for human habitation," "Emergency shelter," and "Transitional housing."*
- *Housing Situations include "Permanent supportive housing," "Rented housing unit," "Owned housing unit," "Staying with family or friends."*
- *Institutional Settings include "Psychiatric facility," "Substance abuse treatment center," "Hospital (non-psychiatric)," "Jail, prison, or juvenile detention."*
- *Other/Unknown Situations include "Hotel or motel (no voucher)," "Foster care home," " Other living situation," and "Unknown setting."*

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Percentages reflect the portion of the total population served in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) in the given year. When adding the percentages across a housing type within a given year, the percentages may not add up to 100 due to rounding.

Figure 603-21. LENGTH OF STAY IN PREVIOUS LIVING ARRANGEMENT BY CURRENT HOUSING TYPE, AVERAGED ACROSS ALL YEARS (2014-2017)

	<1 Week		1 Week-1 Month		1 Month-1 Year		1+ Years		Unknown	
	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	17%	12%	11%	12%	21%	30%	16%	20%	36%	26%
Permanent Supportive	3%	3%	9%	8%	43%	71%	26%	14%	21%	5%
Transitional Housing	10%	4%	9%	24%	44%	33%	3%	5%	34%	33%

Percentages were derived by calculating the averages of each category of time (e.g. <1 week, 1 Week-1 Month, 1 Month-1 Year, 1+ Years, and Unknown)) across all 4 years of data. Where CoC did not have data, null values were removed from calculations.

Percentages reflect the portion of the total population of singles or families served (as appropriate) in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) across all years. When adding the percentages across a housing type, the percentages may not add up to 100 due to rounding.

SYSTEM PERFORMANCE MEASURES

All figures in this section utilize SPM data from 2015-2018. Data from 2015-2017 accessed via HUD's System Performance Summary. SPM data from 2018 accessed via HUD HDX.

	Child	0%	58%	0%	59%	0%	58%	-	-
Transitional Housing	Adult	100%	38%	99%	37%	-	36%	-	-
	Child	0%	62%	1%	63%	-	64%	-	-

Calculated using "Number of Sheltered Adults" and "Number of Sheltered Children" for both Single Individuals and Individuals in Families.
MO-604's AHAR data was incomplete in 2017. Where other values are blank, 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

PRIOR LIVING SITUATION

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.

Figure 604-20. LIVING ARRANGEMENTS IMMEDIATELY PRIOR TO EXPERIENCING HOMELESSNESS, 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Homeless Situations	Emergency Shelter	20%	8%	21%	21%	61%	13%	-	-
	Permanent Supportive	68%	68%	80%	75%	73%	79%	-	-
	Transitional Housing	69%	65%	75%	39%	-	26%	-	-
Housing Situations	Emergency Shelter	22%	14%	19%	15%	15%	13%	-	-
	Permanent Supportive	18%	22%	12%	18%	9%	11%	-	-
	Transitional Housing	17%	24%	17%	40%	-	53%	-	-
Institutional Situations	Emergency Shelter	6%	0%	6%	0%	5%	1%	-	-
	Permanent Supportive	4%	3%	3%	2%	3%	2%	-	-
	Transitional Housing	5%	6%	4%	9%	-	4%	-	-
Other/ Unknown Situations	Emergency Shelter	51%	76%	55%	63%	18%	72%	-	-
	Permanent Supportive	11%	6%	4%	6%	14%	8%	-	-
	Transitional Housing	6%	5%	4%	12%	-	18%	-	-

- *Homeless Situations include "Place not meant for human habitation," "Emergency shelter," and "Transitional housing."*
- *Housing Situations include "Permanent supportive housing," "Rented housing unit," "Owned housing unit," "Staying with family or friends."*
- *Institutional Settings include "Psychiatric facility," "Substance abuse treatment center," "Hospital (non-psychiatric)," "Jail, prison, or juvenile detention."*
- *Other/Unknown Situations include "Hotel or motel (no voucher)," "Foster care home," " Other living situation," and "Unknown setting."*

MO-604's AHAR data was incomplete in 2017. Where other values are blank, 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Percentages reflect the portion of the total population served in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) in the given year. When adding the percentages across a housing type within a given year, the percentages may not add up to 100 due to rounding.

Figure 604-21. LENGTH OF STAY IN PREVIOUS LIVING ARRANGEMENT BY CURRENT HOUSING TYPE, AVERAGED ACROSS ALL YEARS (2014-2017)

|	<1 Week		1 Week-1 Month		1 Month-1 Year		1+ Years		Unknown	
	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	11%	11%	9%	6%	13%	15%	10%	3%	56%	66%
Permanent Supportive	8%	8%	11%	9%	45%	51%	32%	27%	4%	6%
Transitional Housing	6%	7%	8%	27%	68%	52%	16%	7%	4%	7%

Percentages were derived by calculating the averages of each category of time (e.g. <1 week, 1 Week-1 Month, 1 Month-1 Year, 1+ Years, and Unknown)) across all 4 years of data. Where CoC did not have data, null values were removed from calculations.

Percentages reflect the portion of the total population of singles or families served (as appropriate) in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) across all years. When adding the percentages across a housing type, the percentages may not add up to 100 due to rounding.
SYSTEM PERFORMANCE MEASURES

All figures in this section utilize SPM data from 2015-2018. Data from 2015-2017 accessed via HUD's System Performance Summary. SPM data from 2018 accessed via HUD HDX.

Figure 604-22. SYSTEM PERFORMANCE MEASURE 1: MEDIAN NUMBER OF BED NIGHTS IN EMERGENCY SHELTER, SAFE HAVENS, AND TRANSITIONAL HOUSING, 2015-2018
Where values are blank, CoC's SPM data was incomplete.

Figure 604-23. SYSTEM PERFORMANCE MEASURE 2: RETURNS TO HOMELESSNESS BY TYPE OF EXIT, 2015-2018

Percentages were derived by calculating the averages of each category of time (e.g. <6 months, 6-12 months, 1-2 years) for each exit type and year.

Figure 604-24. SYSTEM PERFORMANCE MEASURE 4: PERCENTAGE OF STAYERS THAT INCREASED INCOME BY TYPE OF INCOME, 2015-2018

UTILIZATION BY HOUSING TYPE OVER TIME

All figures in this section utilize AHAR data from 2014-2017, accessed via HUD HDX. AHAR information was unavailable for 2018.
Figure 606-13. TOTAL NUMBER OF SHELTERED PERSONS (SINGLE INDIVIDUALS) BY TYPE OF HOUSING, 2014-2017
- Emergency Shelter
- Permanent Supportive
- Transitional Housing

"Number of Sheltered Persons" on each AHAR did not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children); therefore, for consistency, this chart shows the latter value.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 606-14. TOTAL NUMBER OF SHELTERED PERSONS (INDIVIDUALS IN FAMILIES) BY TYPE OF HOUSING, 2014-2017

- Emergency Shelter
- Permanent Supportive
- Transitional Housing

"Number of Sheltered Persons" on each AHAR did not always total to the sum of ("Number of Sheltered Adults" + "Number of Sheltered Children); therefore, for consistency, this chart shows the latter value.
Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Figure 606-15. UTILIZATION OF HOUSING TYPE BY GENDER (SINGLE INDIVIDUALS/INDIVIDUALS IN FAMILIES), 2014-2017

		2014		2015		2016		2017	
		Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	Male	-	-	66%	41%	-	40%	65%	44%
	Female	-	-	34%	59%	-	60%	35%	56%
Permanent Supportive	Male	50%	39%	48%	41%	47%	39%	47%	38%
	Female	50%	61%	52%	59%	53%	61%	53%	62%
Transitional Housing	Male	-	-	-	-	-	-	-	-
	Female	-	-	-	-	-	-	-	-

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.
Percentages may not add up to 100 due to either 1) rounding, and/or 2) omission of "Unknown" values (e.g. Hispanic/Latino, Non-Hispanic/Non-Latino, Unknown).

	Permanent Supportive	2%	5%	2%	4%	2%	5%	4%	5%
	Transitional Housing	-	-	-	-	-	-	-	-
Institutional Situations	Emergency Shelter	-	-	13%	4%	-	2%	12%	1%
	Permanent Supportive	5%	1%	3%	1%	4%	0%	3%	1%
	Transitional Housing	-	-	-	-	-	-	-	-
Other/ Unknown Situations	Emergency Shelter	-	-	15%	27%	-	12%	18%	16%
	Permanent Supportive	2%	1%	3%	1%	2%	3%	2%	2%
	Transitional Housing	-	-	-	-	-	-	-	-

- *Homeless Situations include "Place not meant for human habitation," "Emergency shelter," and "Transitional housing."*
- *Housing Situations include "Permanent supportive housing," "Rented housing unit," "Owned housing unit," "Staying with family or friends."*
- *Institutional Settings include "Psychiatric facility," "Substance abuse treatment center," "Hospital (non-psychiatric)," "Jail, prison, or juvenile detention."*
- *Other/Unknown Situations include "Hotel or motel (no voucher)," "Foster care home," " Other living situation," and "Unknown setting."*

Where values are blank, either 1) CoC did not offer housing type in that year, and/or 2) CoC's AHAR data was incomplete.

Percentages reflect the portion of the total population served in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) in the given year. When adding the percentages across a housing type within a given year, the percentages may not add up to 100 due to rounding.

Figure 606-21. LENGTH OF STAY IN PREVIOUS LIVING ARRANGEMENT BY CURRENT HOUSING TYPE, AVERAGED ACROSS ALL YEARS (2014-2017)

	<1 Week		1 Week-1 Month		1 Month-1 Year		1+ Years		Unknown	
	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families	Single Individuals	Individuals in Families
Emergency Shelter	36%	38%	17%	23%	22%	30%	13%	3%	14%	5%
Permanent Supportive	22%	27%	31%	29%	40%	38%	8%	5%	1%	1%
Transitional Housing	-	-	-	-	-	-	-	-	-	-

Percentages were derived by calculating the averages of each category of time (e.g. <1 week, 1 Week-1 Month, 1 Month-1 Year, 1+ Years, and Unknown)) across all 4 years of data. Where CoC did not have data, null values were removed from calculations.

Percentages reflect the portion of the total population of singles or families served (as appropriate) in each housing type (i.e., emergency shelter, permanent supportive, transitional housing) across all years. When adding the percentages across a housing type, the percentages may not add up to 100 due to rounding.

SYSTEM PERFORMANCE MEASURES

All figures in this section utilize SPM data from 2015-2018. Data from 2015-2017 accessed via HUD's System Performance Summary. SPM data from 2018 accessed via HUD HDX.
