

HUD Monitoring Resources

CoC Program

- Refer to Chapter 29 in the [CPD Monitoring Handbook](#).
- [CoC Program interim rule](#) provides detail on the program activities for compliance with requirements.
- [HEARTH: Defining “Homeless” Final Rule](#) provides guidance to determine whether ESG funds have been used to serve only eligible program participants.
- [HEARTH: Defining "Chronically Homeless" Final Rule](#) provides information needed to assess the accuracy of recordkeeping (not relevant for assessing program participant eligibility).
- [CoC Program Start Up Trainings](#) provides an understanding of the requirements and responsibilities related to operations and grant administration.
- [Homeless Management Information System requirements, data standards, and tools](#) provides information on HMIS and guides and tools for compliance with HUD's data collection, management, and reporting standards.
- [CoC Program Grants Administration Guide](#) provides recipients with assistance in administering their project, including a comprehensive discussion of grant administration requirements.
- [CoC Program Resource Allocation and Monitoring Strategies](#) includes information to help CoCs and recipients develop an understanding of different ways to engage in year-round program and system-wide evaluation and monitoring.
- [CoC FAQs](#) provides the latest guidance on topics that have triggered questions among those operating the program.
- [System Performance Measures Intro guide](#) provides information on HUD's System Performance Measures, a CoC monitoring requirement established by the HEARTH Act.
- [CoC Program: Unified Funding Agencies Webinar](#) defines and explains the roles and responsibilities of a UFA in the CoC program, including eligible UFA costs, and the UFA's respective relationships to the CoC and subrecipients.
- [CoC Program main page](#) includes additional links to resources if monitors need a deeper level of detail on the program, including links to the CoC virtual binders that describe program requirements by project type.
