TKI administers multiple federal housing and homeless-service grants, including HUD Continuum of Care funding and Supportive Services for Veteran Families (SSVF), and operates a broad continuum that includes Permanent Supportive Housing, Rapid Re-Housing, homelessness prevention, emergency shelter, youth services, Veteran services, and affordable housing. This experience has established strong organizational systems for coordinating funding sources, maintaining grant compliance, and ensuring that limited federal resources are supplemented by other available supports.

TKI strategically leverages state and local funding, mainstream benefits, community partnerships, and private philanthropy to address needs that cannot or should not be supported solely through CoC funding. Case managers connect households to resources such as Medicaid, SNAP, SSI/SSDI, healthcare, behavioral health and substance use treatment, employment and workforce services, transportation, and other community-based assistance. TKI also works closely with local housing providers, healthcare and behavioral health organizations, government agencies, and other nonprofit partners to coordinate services and reduce duplication. Private donations, foundation funding, unrestricted organizational resources, and in-kind contributions provide additional flexibility to address participant needs that may fall outside the eligible scope of federal grants.

This diversified approach allows TKI to maximize the impact of HUD funding by using CoC resources for their intended housing and supportive-service purposes while leveraging other funding and partnerships to address the broader needs that contribute to long-term housing stability. TKI's existing CoC application similarly reflects an organizational model that leverages mainstream benefits, healthcare, behavioral health, employment resources, private funding, donations, and community partnerships rather than relying on CoC funding to meet every participant need. By combining these resources, TKI is able to provide a more comprehensive response to homelessness while promoting housing stability, increased income, recovery, and greater long-term self-sufficiency.

3. Describe your organization's (and subrecipient(s) if applicable) financial management structure.

The Kitchen, Inc. (TKI) maintains a comprehensive financial management structure designed to ensure strong fiscal oversight, accountability, and compliance with federal, state, local, and private funding requirements. Financial oversight is integrated across organizational leadership, fiscal staff, program leadership, and compliance staff, creating multiple levels of review for grant expenditures, budgets, supporting documentation, and program performance. TKI utilizes established internal controls, including separation of financial responsibilities, supervisory approval processes, documentation requirements, reconciliation procedures, and regular review of expenditures against approved grant budgets.

Each grant and funding source is separately tracked to ensure expenditures are allowable, reasonable, allocable, adequately documented, and charged to the appropriate funding source. Fiscal staff coordinate with the Director of Compliance and Programs and Program Managers to monitor expenditures, grant balances, match requirements, reimbursement requests and drawdowns, and the percentage of the grant period remaining. This allows TKI to identify potential underspending, overspending, documentation concerns, or budget variances early and implement corrective action before they affect grant performance. Program and fiscal leadership also work together to ensure expenditures align with both the approved budget and actual program activities.

TKI further supports financial accountability through organizational policies and procedures, leadership oversight, external financial audits, and ongoing monitoring of grant performance. Any findings, recommendations, or areas of concern identified through internal review, grant monitoring, or external audit processes are evaluated and addressed through appropriate corrective action. This layered financial management structure allows TKI to effectively administer multiple funding sources while maintaining appropriate internal controls, maximizing available resources, and ensuring responsible stewardship of public and private funds.

4. Are there any unresolved HUD monitoring or OIG audit findings for any HUD grants (including ESG) under your organization?	No

8. Is this new project application requesting to transition from eligible renewal project(s) that was awarded to the same recipient and fully eliminated through reallocation in this CoC Program Competition? (Attachment Requirement) Yes

8a. List all expiring project(s) involved in the transition:

Grant PIN	Operating Start Date	Expiration Date	Component Type
MO0187	01/01/2027	12/31/2027	PH-RRH

7b. Provide a brief description that addresses the scope of the proposed transition during the first year of operation.

The Kitchen, Inc. (TKI) proposes to transition a portion of its existing Families Rapid Re-Housing (RRH) project to a Supportive Services Only (SSO) project serving families with children experiencing homelessness. The transition will shift the project from directly providing HUD-funded rental assistance to providing intensive, housing-focused case management and supportive services in partnership with housing providers and other community resources. During the transition, TKI will work with households currently receiving RRH assistance to ensure continuity of services and develop individualized plans for maintaining stable housing as direct rental assistance concludes.

Under the SSO model, TKI will provide comprehensive case management focused on helping families obtain and maintain permanent housing while addressing barriers to long-term self-sufficiency. Services will emphasize employment and increased earned income, connection to mainstream benefits, budgeting and financial management, behavioral health and substance use recovery when applicable, childcare, transportation, education, tenancy skills, and landlord mediation. TKI will leverage partnerships with housing providers and community organizations to connect families with housing opportunities and resources outside of the CoC grant.

The transition will allow TKI to focus CoC resources on the supportive services necessary to help families achieve sustainable housing outcomes while leveraging other public, private, and community resources for housing and financial assistance. The SSO project will emphasize measurable progress toward stable permanent housing, increased household income, employment, and reduced reliance on ongoing housing assistance, with the goal of helping families develop the financial stability, skills, and community connections necessary to maintain housing independently.

9. Will funds requested in this new project application replace state or local government funds (24 CFR 578.87(a))?	No
11. Is this project applying for Rural costs on screen 6A?	No

3B. Project Description

1. Provide a description that addresses the entire scope of the proposed project.

The Kitchen, Inc.'s (TKI) proposed Supportive Services Only (SSO) Families project will provide housing navigation and comprehensive, housing-focused case management to families with children experiencing homelessness. TKI will partner with an external housing provider that will provide access to permanent housing, while TKI will serve as the supportive services partner responsible for helping families successfully locate, enter, and maintain that housing. This partnership allows each organization to focus on its area of expertise while creating a coordinated pathway from homelessness to permanent housing.

TKI's services will begin with assessment and housing navigation, including identifying housing needs and barriers, assisting with housing searches and applications, obtaining required documentation, coordinating with the housing partner and landlords, and supporting families through the lease-up and move-in process. Once housed, TKI will provide individualized case management focused on long-term housing stability and increased self-sufficiency. Services will address employment and earned income, mainstream benefits, budgeting and financial management, childcare, transportation, education, physical and behavioral healthcare, substance use treatment and recovery when applicable, tenancy skills, landlord communication and mediation, and other needs that could affect a family's ability to maintain permanent housing.

The project's goal is not only to place families into permanent housing, but to ensure they have the income, skills, resources, and community connections necessary to remain stably housed. TKI will coordinate closely with the housing partner throughout participation, monitor housing stability and progress toward individualized goals, and intervene early when challenges threaten a household's tenancy. By combining the housing capacity of an external partner with TKI's expertise in housing navigation, intensive case management, and homeless services, the SSO Families project will provide a coordinated approach that helps families exit homelessness, increase financial stability, and successfully maintain permanent housing.

4A. Supportive Services for Participants

1a. Describe how The Supportive Services project is necessary to assist people in exiting homelessness, addressing barriers to stable housing (e.g., substance use disorder, unemployment, childcare, etc.) and increasing self-sufficiency.

The proposed SSO Families project is designed to address the barriers that often prevent families experiencing homelessness from successfully obtaining and maintaining permanent housing. While TKI's housing partner will provide access to permanent housing, housing alone may not resolve the underlying challenges that contributed to a family's homelessness. TKI will provide housing navigation and individualized, housing-focused case management to help families move from homelessness into permanent housing and build the stability necessary to maintain that housing long term.

Services will address barriers such as unemployment or insufficient income, childcare, transportation, behavioral health and substance use disorders, physical healthcare, limited access to benefits, poor credit or rental history, legal concerns, and lack of independent living or tenancy skills. Case managers will work with families to increase earned income through employment and workforce resources, access mainstream benefits, develop budgeting and financial management skills, and establish connections to community services that can continue beyond program participation. TKI will also coordinate with the housing partner to identify and address tenancy concerns before they result in housing loss. By combining permanent housing with targeted supportive services, the project will help families not only exit homelessness but increase self-sufficiency and reduce their risk of returning to homelessness.

2. How will this project be supplemented with resources from other public or private sources, that may include mainstream health, social, and employment programs such as Medicare, Medicaid, SSI, and SNAP.

TKI will leverage federal, state, local, private, and mainstream community resources to supplement CoC-funded supportive services. Most significantly, the project will leverage permanent housing provided through an external housing partner, allowing TKI to concentrate CoC resources on housing navigation, case management, housing stabilization, and services that promote long-term self-sufficiency.

Case managers will assess each household's eligibility for resources such as Medicaid, SNAP, SSI/SSDI when appropriate, childcare assistance, healthcare, behavioral health and substance use treatment, employment and workforce programs, education and training, transportation, and other public benefits. TKI will also leverage its existing community partnerships, private philanthropy, foundation support, donations, and unrestricted organizational resources to address needs that cannot be met through CoC funding. Particular emphasis will be placed on connecting families with employment, income, healthcare, childcare, and community resources that remain available after SSO services end, creating a sustainable support network around each household.

2a. Will the applicant conduct and annual assessment of service needs of the program participants? Yes

3. Describe the strategy for providing supportive services to eligible program participants (including those with history of unsheltered homelessness and those who do not traditionally engage with supportive services).

TKI will utilize a participant-centered, trauma-informed and progressive engagement approach to supportive services. Upon enrollment, case managers will assess each household's strengths, needs, barriers, and goals and develop an individualized service plan focused on obtaining and maintaining permanent housing. Services will be tailored to the household rather than relying on a one-size-fits-all model and will prioritize the needs most directly affecting housing stability, employment, income, health, and family well-being.

For participants with histories of unsheltered homelessness or who have difficulty engaging in traditional supportive services, TKI will emphasize persistent relationship-building, flexibility, and meeting participants where they are. Staff will use multiple methods of engagement, coordinate with outreach providers and other trusted community partners when appropriate, and work to address practical barriers such as transportation, childcare, communication, documentation, and behavioral health needs. Once families are housed, case managers will maintain regular contact and coordinate with the housing partner to identify emerging concerns and intervene before they threaten tenancy. As households become increasingly stable, services will shift toward employment, increased income, independent living, and connections to mainstream and community resources, with the ultimate goal of helping families maintain permanent housing with decreasing reliance on intensive homeless-service interventions.

VAWA Budget

VAWA Budget

The Violence Against Women Act (VAWA) has clarified the use of CoC Program funds for VAWA eligible cost categories. These VAWA cost categories can be added to a new project application to create a CoC VAWA Budget Line Item (BLI) in e-snaps and eLOCCS. The new BLI will be added to grant agreements and utilized the same as other CoC Program BLIs in e-snaps and eLOCCS. Eligible CoC VAWA costs can be identified in one or both of the following CoC VAWA categories. Examples of eligible costs in these cost categories are identified as follows:
